(1) Approval for ElectraLED as a dimming system is contingent upon use with ELS-C-1200 dimming module and WattStopper FS-705 sensors

(2) Approval for G.E. Lumination products as a dimming system is contingent upon use of the listed fixtures plus the following components:

- LED Driver: GE-PS1800NCMUL-SY; sensor power pack: Watt Stopper® BZ-100WM; sensor: Watt Stopper® FS-705
- LED Driver: GE-PS1800NCMUL-SY; sensor power pack: Sensorswitch® MP-20-RJ; sensor: Sensorswitch® RA-15

(3) The Watts per door for this product varies depending on whether two end bars or one center bar fixture is used for the center mullion.

(4) As of March 12, 2010 only Anthony International's 500 mA center bar fixtures are approved. Other options are still pending.
