

Complete Energy Solutions

Energy efficient and electric vehicle charging solutions for your business

Do you want to dramatically cut your energy bills?

It's easy! We want to help you become more energy efficient and reduce your energy cost, so we created **Complete Energy Solutions**.

We do the work. You save on your bill.

- **Get started with a FREE energy assessment.**
Our assessment of your energy use shows you how you can save, with no obligation.
- **We make it easy.**
We manage the entire job for you. Energy assessment. Contractors. Rebates. Everything.
- **We offer generous rebates.**
On average, rebates have covered 38% of the project.
- **Quick Payback.**
Many installations pay for themselves in one to two years.
- **Trustworthy.**
As a not-for-profit utility, our agenda is simple: reduce your energy use as cost effectively as possible.

Reduce your energy use by as much as 20%.

We make saving energy easy.

Here's how it works

1. Sign up for a FREE energy assessment.
We'll walk through your property and identify energy saving opportunities that could improve your bottom line.
2. Approve the proposal.
We'll create a personalized proposal for your business outlining your energy saving opportunities, rebates, projected bill savings, and payback period.
3. Schedule the install. Enjoy your upgrades and savings.
We'll help you select an approved contractor and schedule your job for a time that is convenient for you. We'll perform an inspection when the work is done to ensure the highest quality job.

SMUD has partnered with TRC to bring comprehensive energy efficiency solutions to small and mid-sized businesses. Working together, we can help local companies lower their electricity usage and improve their bottom line.
