Wednesday, October 17, 2018, scheduled to begin at 5:30 p.m.
Customer Service Center, Rubicon Room

SD-6 Safety

Creating a safe environment for employees and the public is a core value of SMUD. Through continuous improvement, SMUD will be recognized as a leader in employee safety while also assuring the safety of the public related to SMUD operations and facilities. This includes a comprehensive approach to monitoring organizational and public safety performance.

Therefore, SMUD will continue to improve safety results to: **Workplace Safety** a) Reduce SMUD's injury severity rate to 1.4 by 2020, as measured by OSHA's Days Away Restricted Time (DART), a rate that demonstrates strong safety performance. b) Provide timely, quality health care for injured employees that aids their recovery while maintaining positive financial performance of the workers' compensation program.

Public Safety a) Track and report injuries to the public related to SMUD operations or facilities. b) Implement measures to protect the public from injuries related to SMUD operations or facilities.

Comment:

Do we recognize the potential public safety benefit of system enhancement (undergrounding)? -
