OFFICE MEMORANDUM

TO: Board of Directors

DATE: November 22, 2021

FROM: Claire Rogers *CR 11/22/21*

**SUBJECT: Audit Report No. 28007348
Board Monitoring Report; SD-11: Public Power Business
Model**

Audit and Quality Services (AQS) received the SD-11 *Public Power Business Model* 2021 Annual Board Monitoring Report and performed the following:

- A review of the information presented in the report to determine the possible existence of material misstatements;
- Interviews with report contributors and verification of the methodology used to prepare the monitoring report; and
- Validation of the reasonableness of a selection of the report's statements and assertions.

During the review, nothing came to AQS' attention that would suggest the SD Board Monitoring report did not fairly represent the source data available at the time of the review.

Board Monitoring Report 2021

SD-11, Public Power Business Model

1. Background

Strategic Direction [11](#), Public Power Business Model states that:

Supporting and strengthening the public power business model is a core value. Local decision making and flexibility are essential to effective and responsible local governance. Community-owned utilities are primarily accountable to their customers, not stockholders. Community citizens have a direct voice in public power decisions.

Preservation of this business model is vital to ensure public power systems continue to provide innovative solutions tailored to best meet the needs of their customers and communities.

2. Executive Summary

SMUD is in compliance with SD-11.

The SD-11 monitoring report updates the Board on our efforts to insulate SMUD from issues that may impact our local governance and provide the Board with a final status report on 2021 issues impacting this strategic directive. SMUD's interests are advanced in the legislative and regulatory arenas to the greatest extent possible. For instance, SMUD meets with key federal and state officials, both elected and appointed, with the driving purpose of educating them on the impact of new and existing policy.

State Legislative. SMUD had several victories this year in the California Legislature that advanced the public power business model to ensure local decision making and flexibility. SMUD and other publicly owned utilities secured funding in the state budget to help our customers with unpaid utility bills. SMUD ensured flexibility for eligibility and prioritization of funding and will receive over \$41 million to assist our customers with unpaid bills due to the COVID 19 pandemic.

SMUD also worked to defeat problematic bills including:

- A bill that set the wheels in motion for the state to procure energy to serve its own load [Assembly Bill (AB) 1161];
- A bill that would have required publicly owned utilities (POUs) to pay for the removal of all vegetation we maintain if the landowner requests it and required the Office of Energy Infrastructure Safety to determine messaging on customer communications for vegetation management [Senate Bill (SB) 396]; and,

- A bill that would have established more stringent shot clocks for pole attachments, imposed new remedy requirements, limited attachment fees, and more (SB 556).

SMUD also supported three resolutions that highlight the important work of SMUD, special districts, and POU's: Senate Concurrent Resolution (SCR) 51 in recognition of SMUD for our 2030 Zero Carbon Plan, SCR 49 in recognition of Public Power Week, and Assembly Concurrent Resolution (ACR) 17 in recognition of Special Districts Week.

State Regulatory. SMUD staff participated in numerous workshops and regulatory proceedings at the California Air Resources Board (CARB), the California Energy Commission (CEC) and the California Public Utilities Commission (CPUC) throughout the year.

At the CEC, SMUD staff actively contributed to the ongoing Load Management Standard rulemaking, the revisions to Title 20 Energy Data Collection proceeding, and the development of the 2021 Integrated Energy Policy Report.

SMUD staff also participated in the 2022 Energy Code Rulemaking including revisions to Community Solar, a breadth of Clean Transportation Funding Programs and Investment Planning regulatory activities, and implementation of tasks pursuant to new data collection requirements.

Further, SMUD staff is participating in a variety of Electric Vehicle Charging Infrastructure and Workforce proceedings, and Environmental Justice discussions, a joint focus of the CEC, CARB, CPUC, and the Governor's Office of Business and Economic Development (GO-Biz).

At CARB, staff participated in proceedings to develop the Scoping Plan Update, transportation electrification programs like the Advanced Clean Fleets (ACF) suite of regulations, and the revised gas-insulated equipment sulfur hexafluoride (SF₆) regulations, which is currently in review by the Office of Administrative Law (OAL). All these regulatory proceedings are ongoing, and at least several are likely to extend into 2022.

Federal. Through the testimony of Paul Lau before Congress earlier this year, SMUD announced its goal to achieve absolute zero carbon emissions from its generation portfolio by 2030. Addressing the Select Committee on the Climate Crisis, Paul explained SMUD's experience fostering economic development via climate action highlighting local workforce development initiatives enabled by decisions made within the Sacramento Community.

On the legislative front, SMUD staff focused much of 2021 on advocating an array of climate and energy grant programs and provisions in the Infrastructure Investment and

Jobs Act and the proposed Build Back Better Act. In the recently enacted Infrastructure Investment and Jobs Act, SMUD supported robust funding for grid resilience, cybersecurity enhancements, and electric vehicle charging infrastructure. In the pending Build Back Better Act, SMUD is calling for the long-term extension and expansion of energy tax credits. In a legislative victory, SMUD worked to include a provision in both the House and Senate proposals that would allow public power utilities to receive refundable direct payments of the energy tax credits.

Outside of the legislative arena, SMUD filed comments to the Department of Energy's (DOE) Request for Information (RFI) on Integrating Electric Vehicles onto the Electric Grid. SMUD through the Large Public Power Council, American Public Power Association and other trade Associations (Associations) also submitted joint comments to DOE's Supply Chain RFI.

In the regulatory arena, in partnership with two coalitions (the National Coalition for Advanced Transportation and the Energy Strategy Group), SMUD filed joint comments on the U.S. Environmental Protection Agency's (EPA) greenhouse gas (GHG) standards for light duty vehicles, model years (MY) 2023-2026. SMUD, along with a group of seven other major utilities, filed a brief in opposition to the Supreme Court taking up for review the D.C Circuit's decision to strike down the Affordable Clean Energy (ACE) rule. With the Court's recent approval to hear the case, SMUD and its coalition partners will be supporting the Department of Justice's defense of EPA's legal authority to regulate greenhouse gas emissions from emitting sources.

Community Choice Aggregators. This year, SMUD provided services for three Community Choice Aggregator (CCA) clients – East Bay Community Energy (EBCE) in Alameda County, Valley Clean Energy Alliance (VCE) in Yolo County, and Silicon Valley Clean Energy (SVCE) in Santa Clara County. CCAs are local governments situated in the service territory of an incumbent investor-owned utility (IOU) that want greater local control over their electricity rates and more access to renewable energy. SMUD's mission is strongly aligned with the CCA model, which has core goals of local decision making, customer/community focus, and environmental stewardship. Serving CCAs supports the public power model and provides a new revenue source for SMUD to help fund investments necessary to modernize the grid and expand offerings to our customers.

Western Energy Imbalance Market (EIM) and Extended Day-Ahead Market (EDAM). SMUD continues to see significant benefits with its participation in the California Independent System Operator Corporation's (CAISO) EIM since joining in 2019 through the Balancing Authority of Northern California (BANC). On March 25, 2021, the remaining BANC Balancing Authority Area (BAA) footprint joined the EIM. This broader BANC resource participation has resulted in greater economic benefits and a better ability to integrate and manage intermittent resources within the BANC footprint.

SMUD and BANC, as well as other EIM participants, have supported the extension of

the EIM real-time framework to the CAISO's day ahead market under the CAISO's EDAM initiative. After pausing the initiative for approximately a year following the summer 2020 heatwave outages, the CAISO recently restarted the EDAM initiative, this time with renewed focus and broader stakeholder participation, with hopes of launching EDAM in 2024. SMUD views EDAM as an important step forward in the evolution of Western energy markets and it aligns well with SMUD's 2030 Zero Carbon Plan goals.

As SMUD's Strategic Plan indicates, internal and external factors are driving our business and shaping our business model. Legislative and regulatory uncertainty continues to be a threat to the Public Power Business Model SD-11. SMUD takes positions on legislation and regulations based on the Board's Strategic Direction.

3. Additional Supporting Information

Local decision making and flexibility are essential to effective and responsible local governance. High priority 2021 issues were as follows:

- Funding for utility customer arrears
- Defending against expensive requirements for POUs related to vegetation management and pole attachments, among other issues
- Wildfire funding
- Recognizing SMUD's 2030 Zero Carbon Plan through a Senate Concurrent Resolution
- Electric vehicle funding
- CEC proceeding on building standards
- CEC implementation of efficiency benchmarking expansion and more detailed data collection requirements
- CARB proceeding to modify the SF6 regulations
- Legislation pending in Congress to restore the cost-savings benefits of advance refunding (refinancing) municipal bonds.
- Inclusion in pending Reconciliation bill of direct refundability of federal renewable energy tax incentives
- Conveyed SMUD priorities to Congressional and White House staff for Clean Electricity Performance Program
- Preparation and submittal of SMUD's Utility Security Plan to the CPUC
- Extended Day-Ahead Market (EDAM) development

4. Challenges:

SMUD continues to face prescriptive legislative and regulatory mandates for carbon reduction, renewable energy, wildfire planning, and resource planning, in part because of the State's robust climate change goals. The heat waves in 2020 that resulted in rotating outages in the CAISO territory led to legislative action in the form of storage mandates and/or changes to resource adequacy and planning requirements. Changes

to Cap-and-Trade are also on the horizon. SMUD will continue to advocate for the advancement of transportation and building electrification. Transportation electrification has been a priority for this Administration, with Governor Newsom's executive order to require that all new cars and passenger trucks sold in California be zero-emission vehicles by 2035. Finally, SMUD continues to monitor CPUC proceedings that may attempt to assert jurisdiction over POUs (e.g., maintenance and access to SMUD's electric facility database).

5. Recommendation

It is recommended that the Board accept the Monitoring Report for SD-11.

6. Appendices

CCAs

SMUD ventured into providing services to CCAs in California to diversify our revenue sources in a way that is consistent with supporting public power and environmental goals in California. SMUD is providing (VCE with call center, billing and data management, wholesale energy, and consulting services. SMUD is supporting EBCE with call center and billing and data management services through 2024. SMUD also provides program design, development, administration and marketing services to SVCE.

These CCAs allow their customers to access many of the same public power benefits that SMUD and other POUs have provided millions of Californians. SMUD is leveraging our approximately 75 years of experience as a utility, staff expertise, and existing systems to provide skilled services to CCAs, generating new revenue and strengthening SMUD's ability to provide cost effective public power service to our customers.

There are currently over 20 active CCAs in California, representing nearly half of the state, and many more that are emerging or investigating the feasibility of starting a new CCA.

State Legislation that Impacted SD-11

AB 1161 (E. Garcia): Procurement for State Buildings

AB 1161 is a bill that directed the Department of Water Resources (DWR) to procure zero carbon energy to offset the energy use of state buildings.

SMUD Position: Oppose

Status: Two-year bill; bill did not pass this year, but it is eligible to move next year.

Staff Comment: The bill links new power projects built by DWR with the energy use in state buildings, which is a very unfavorable precedent and could have had a profound impact on our public power business model. The bill was also unnecessary – under SMUD's 2030 Zero Carbon Plan, all state buildings in our territory will be served by zero carbon resources, not to

mention all Department of General Service buildings in our territory are already served by SolarShares and Greenergy.

SB 129 and AB 135 (Budget): Funding for Utility Customer Arrears

The state budget, SB 129, included nearly \$1 billion in funding for unpaid energy bills (both gas and electric). Once funding was secured in the budget, there were many details on how the funds would be distributed and to whom, all to be included in a subsequent budget trailer bill, the implementing language of budget appropriations. SMUD and other POU's advocated for these funds to be distributed in an efficient manner that maintains as much discretion for utilities as possible to ensure our customers impacted by the COVID-19 pandemic receive assistance. SMUD will receive \$41,369,318 in funding to assist our customers with unpaid bills due to the pandemic.

SMUD Position: Support

Status: Passed and signed by Governor

Staff Comment: Since many customers have been unable to pay their SMUD bills due to significant economic impacts stemming from the COVID-19 pandemic, this funding was the top priority for SMUD at the legislature. SMUD worked closely with a coalition of other POU's through our trade association, the California Municipal Utilities Association (CMUA), to advocate tirelessly for this funding. We are now in the implementation phase of receiving the funding.

SB 396 (Dahle): Vegetation Management

SB 396 would have required POU's to pay to remove any felled trees from the high fire threat district if the landowner requests they be hauled from their property. Currently, SMUD works with the landowner on allocating costs for tree removal, as the tree is the property of the landowner. The bill also required the Office of Energy Infrastructure Safety to develop standardized content for communications with customers.

SMUD Position: Expressed concerns; CMUA opposed

Status: Two-year bill; bill did not pass this year, but it is eligible to move next year.

Staff Comment: This bill would have had significant cost implications for our customers and by standardizing our customer content, would have interfered with local governance and how we communicate with our customers. SMUD worked with our trade association, CMUA, to lodge our concerns on this bill and it ultimately stalled, becoming a two-year bill.

SB 556 (Dodd): Pole Attachments

Another concerning bill that was defeated was SB 556 (Dodd). This bill sailed through the Legislature, but it was ultimately vetoed by the Governor. SB 556 applied new 5G pole attachment rules for streetlight and traffic signal poles, impacting both cities and POU's. Specifically, the bill would have established more stringent timelines for review of the

application to attach (shot clocks), imposed new remedy requirements, limited attachment fees, and more.

SMUD Position: Concerns, worked through CMUA who had an oppose position

Status: Vetoed by Governor

Staff Comment: SMUD owns streetlight poles and would have been directly impacted by the bill. Earlier versions of the bill would have applied the new rules to utility poles, but, due to advocacy from the POU community, its scope was narrowed during the legislative process. In vetoing the bill, Governor Newsom said the bill would have restricted “the ability of local governments and publicly-owned electric utilities to regulate the placement of small wireless facilities on public infrastructure and limit the compensation that may be collected for use of these public assets.” The defeat of this legislation helps to preserve the public power business model.

AB 229 (Holden) – Security Guards

Among other provisions regarding use-of-force training, this bill would have prohibited security guards from carrying or using a firearm or baton unless the security guard is an employee of a private patrol operator licensee. This bill would have unintentionally prohibited SMUD’s security guards, who are not employed by a private patrol company, from being able to carry a weapon.

SMUD Position: Watch

Status: Passed and signed by Governor (provisions that impacted SMUD were removed)

Staff Comment: SMUD met with the author’s office to explain our concerns and was able to expediently secure amendments that carve out employees of the state or a political subdivision of the state, which includes SMUD.

Resolutions

There were three resolutions this year that assisted in bolstering the public power business model. Resolutions are largely symbolic – they express the will of the Legislature and do not have the force or effect of law. SCR 49 designated the first full week of October each year as “Public Power Week,” to honor public power utilities and our contributions to our customers and communities. ACR 17 designated “Special Districts Week” from May 16, 2021, to May 22, 2021, commending special districts’ work. As both a public power utility and special district, these resolutions will remind the Legislature of the good work we do for our customers and community.

Finally, Senator Pan and Assemblymember Cooley authored a resolution, SCR 51, commending SMUD for setting the most ambitious carbon reduction goal of any large utility in the country and applauding SMUD’s commitment to finding innovative ways to reach our zero carbon goal without impacting reliability or rates (beyond inflation). This is great recognition for SMUD and our Board’s tremendous vision for the future, as well as the public power business model.

SMUD Position: Support
Status: All three resolutions passed.

AB 758 (Nazarian): Rate Reduction Bonds

AB 758 enables POU's to issue rate reduction bonds to finance or refinance utility projects. The bill was sponsored by CMUA.

SMUD Position: Support
Status: Passed and signed by Governor

Staff Comment: While it is unclear if SMUD will need to utilize this financing tool, expanded its availability to other POU's advances the public power business model.

AB 361 (Rivas): Open Meetings – Teleconferencing

AB 361 creates statutory exemptions to the Brown Act's teleconferencing requirements during a state or local emergency, until January 1, 2024. The bill took effect immediately as an urgency bill.

SMUD Position: Watch
Status: Passed and signed by Governor

Staff Comment: This creates added flexibility for local governance.

State Regulation that Impacted SD-11

2022 Building Energy Code

The 2022 Energy Code will improve upon the 2019 Energy Code for newly constructed buildings, additions, and alterations, and will apply to building permit applications submitted on or after January 1, 2023.

The 2022 Energy Code is essential to California in that it supports the state's clean energy goals, policies, and mandates. The 2022 Energy Code will increase the deployment of on-site renewable energy generation, reduce GHG emissions from new buildings (building decarbonization), reduce growth in energy demand, increase energy demand flexibility, and ensure that California buildings are as energy efficient as technically feasible and cost effective.

Status: On August 11, 2021, the Commission unanimously voted to adopt the 2022 Energy Code. The code is the first in the nation to include highly efficient electric heat pump technology as a baseline for new homes and small commercial buildings. This is an important step forward towards all-electric buildings in the state of California. SMUD was generally supportive of staff proposals throughout the pre-rulemaking, and we supported the CEC adopting an all-electric baseline for the 2022 Energy Code for

residential and commercial buildings. While SMUD did not oppose the Community Solar opt-out provision included in the 2022 Energy Code, SMUD is concerned that the inclusion of the opt-out will discourage prospective program administrators from entering the market.

Advanced Clean Fleets (ACF) Regulations

The ACF rulemaking is part of a comprehensive strategy to achieve a zero-emission truck and bus fleet by 2045 everywhere feasible, and significantly earlier for market segments such as public fleets. The Draft Regulation for Public Fleets Requirements introduces the following zero-emission vehicle (ZEV) purchasing requirements that will apply when SMUD adds vehicles to its fleet. Compliance will be assessed based on the purchase orders we make each calendar year, not the model year of the vehicle or placed-in-service date:

- 50% of vehicle purchases in calendar year (CY) 2024-2026 must be ZEVs.
- 100% of vehicle purchases in CY 2027 and beyond must be ZEVs.
- Until 2035, near-zero EVs (NZEVs) may be purchased if no ZEV is available.
- Up to 25% of vehicles (by body type) may be exempted from the ZEV requirement only if 75% of the same body type is ZEV.

Status: SMUD staff is in discussions with CMUA, the California Electric Transportation Coalition (CalETC), and the IOUs to collaborate on a unified ZEV implementation proposal for CARB's consideration given that the concepts included in the current draft ACF regulation is highly problematic. We recommended that rather than differentiating between Public and High Priority/Federal Fleets, CARB should consider a regulatory structure that caters to the distinct ZEV implementation challenges of small/medium fleets and large fleets respectively.

SMUD is recommending that CARB consider a ZEV implementation methodology similar to existing CARB regulatory structures that allow for more organic internal combustion engine (ICE) to ZEV replacements like a Fleet Average approach. A Fleet Average approach will enable fleet owners the flexibility to decide how best to manage their fleets, based on community requirements and available technologies, to meet annual ZEV targets set by CARB. A Fleet Average approach to ZEV acquisitions may also prevent wasteful stranding of existing assets. SMUD averages 12 to 15 years for total fleet turnover. Our average fleet age is approximately 10 years old. A Fleet Average approach will allow us to replace our dirtiest, least efficient vehicles earlier and faster, while avoiding the added expense of stranding assets by replacing vehicles that have not yet reached the end of their useful life.

Staff expects to bring its recommendations to the CARB Board by late summer or early fall 2022.

Load Management Standard (LMS) Rulemaking

The LMS Rulemaking will expand on efforts to increase efficiency and demand flexibility in California's electricity grid. The standard has been in statute since 1978 and requires

the state's three IOUs, the Los Angeles Department of Water and Power (LADWP) and SMUD to develop marginal cost-based rates. The goal of the 2020 rulemaking is to form the foundation for a statewide system that automates the creation of hourly and sub-hourly costs or signals that can be used by end-use automation to provide real-time demand flexibility on the grid.

SMUD staff has taken a balanced approach in this proceeding. We recognize from a strategy standpoint that as an industry this is a direction that will be part of the toolset for utilities, including SMUD, for the future. Further, we need to consider how our input into this process is not just focused on the burden of trying to implement the standard but provided in a way to address the intended outcomes.

Status: CEC staff released the draft Staff Analysis of Potential Amendments. On August 25, 2021, SMUD submitted informal joint comments (a combined effort between Los Angeles Department of Water and Power and SMUD with input from Southern California Edison). We recommended language to provide additional clarity to the proposed Standards, including the following:

- Clarification that POU Board of Directors have sole or final rate-approving authority.
- June 30, 2023 deadline (vs. March 30, 2023) to present a recommended approach for implementing hourly or sub-hourly marginal cost-based rates, voluntary pilot rate, or tariff to rate-approving body.
- Additional options of "pilot rate" tariff or program.
- December 31, 2024 deadline to perform evaluation of marginal-cost based rate offering and voluntary pilot rate, tariff, or program and present to rate-approving body.
- Implementation, if a utility deems appropriate, by June 30, 2025 or according to a schedule established by the rate-approving body.

We also shared our comments with PG&E and SDG&E staff, and they have been generally supportive of our approach. Additionally, the California Community Choice Association (CalCCA) have indicated they are supportive of our comments as well, although a formal position would have required review by the CalCCA Regulatory Committee which could not have been accomplished by the comment deadline.

Opening of a formal rulemaking and 45-Day Language are expected in the first quarter of 2022 with adoption of the LMS by the second quarter of 2022.

Data Reporting Policies

Last year, the CEC adopted modifications to its Title 20 data collection regulations that would require significantly more detailed reporting from SMUD about solar generators, storage systems, and customer electricity loads. SMUD had argued for a significant reduction in the data that is being requested.

Status: The data filing of generator data down to the smallest photovoltaic (PV) system happened in January and July of 2021, and SMUD continues to work out small kinks in the submittal process. Compliance with the detailed interval meter data was postponed; SMUD submitted three years' worth of disaggregated demand data in February 2021, after the protocols for data structure and data submittal and data security were established.

On August 6, 2021, the Commission adopted the Express Terms document (official revisions) of proposed amendments to Title 20, Chapter 3 (Energy Data Collection). The new regulations to Public Resource Code, Title 20, on data collection will support implementation of SB 350 (De Leon, 2015) and improve California Energy analytics. These regulations will modify existing efforts by the CEC to combine all prime mover technologies of electric generation (including wind) under the same regulations. Currently, wind reporting regulations are authorized under a separate set of regulations. Additionally, the regulations limit the collection of water data to those power plants that are rated 50 megawatts (MW) and larger in total nameplate capacity. Consolidating the wind reporting requirements into the same regulation as other electric generation resources will streamline the reporting process.

Solano Wind Project

In preparation for developing the Solano 4 Wind Project (which will repower Solano 1 as well as develop new turbines on additional land within the Solano Wind Resource Area), SMUD applied on April 6, 2021 for an advisory determination from the Solano County Airport Land Use Commission (ALUC) that the Project is consistent with the Travis Air Force Base Land Use Compatibility Plan, but the ALUC, on May 20, 2021, made a finding that the Project was not consistent with the Travis Plan. The finding was based on a purportedly significant level of interference with Travis's radar system, despite the Federal Aviation Administration, Department of Defense, and Travis Air Force Base itself determining that the Project would not pose significant adverse impacts.

On August 19, 2021, SMUD's Board certified the environmental impact report and approved the Project; adopted a finding of overriding considerations; made findings in support of a decision to overrule the decision by the ALUC, determining unanimously that the Project is consistent with the State Aeronautics Act, a power granted under the Act to local agencies; found there is no feasible alternative to the Project, which trigger an exemption from transmission-related zoning ordinances for the Project. The administrative record contains robust substantial evidence in support of these decision.

Solano County filed a legal challenge to the Board's decision. The evidentiary support for the Project approval is strong, the Project is important for State and SMUD climate change goals, poses no significant impact on the Travis Air Force Base radar system, and the Board's actions on this Project reaffirm and support the public power business model. Staff expects the case to be decided in SMUD's favor in 2022.

Delta Water and Hydro Impacts

Two substantial Delta planning processes could potentially affect energy available for SMUD's purchase from the Central Valley Project (CVP) and flows within the Upper American River Project (UARP) watershed: the Bay–Delta Water Quality Control Plan (Bay–Delta Plan), and the Delta Conveyance Project (successor to the WaterFix Project, which was in turn successor to the Bay Delta Conservation Plan).

Phase 2 of the Bay–Delta Plan is ongoing and could potentially affect SMUD by increasing the volume of water required for outflow into the Bay (Phase 3 would, if carried out, implement Phase 2 through modifications to water rights). A substantial change in Delta outflow and tributary flow requirements could, among other things, have a major impact on the timing of hydroelectric energy generation. The State Water Resources Control Board (SWRCB) staff released a draft of one of the Phase 2 documents identifying an environmental need for significantly more outflows (in short, 35 to 75% of all water is allegedly needed for outflow with staff recommending 45 to 65%). Governor Newsom requested that the SWRCB explore negotiation of voluntary agreements with water purveyors in lieu of imposing a strict plan. Work on the voluntary agreements process ceased during the last part of the Trump administration and has been slow and sporadic since President Biden took office.

Although the earlier, two-tunnel Delta conveyance Water Fix Project was cancelled and its environmental documents rescinded in 2019, the Department of Water Resources (DWR) quickly relaunched the project as a one-tunnel option, renamed Delta Conveyance Project. The environmental review process is in its early stages: the Notice of Preparation was released in January 2020 but the expected Draft Environmental Impact Report has not yet followed. The project would involve building one new intake and a tunnel to complement the historical diversion of water through the Delta channels for the State Water Project (SWP), and potentially the CVP as well. Using the tunnels would be part of an effort to maintain or even increase Delta watershed exports to Southern and Central California. Proponents have claimed the project would help reduce the historical impacts of the South of Delta pumps on special status fish species, though modeling by Northern California interests suggests the reduced impacts have not been proven and in fact the opposite could be true. If provided by the CVP, power for the estimated 10-year construction effort and long-term operations would come out of supplies otherwise sold to public power contractors, the single largest share of which goes to SMUD under an existing long-term contract (which will be succeeded a new contract). Changes in the timing of the energy generation due to the project are as yet unclear.

Staff Comment: SMUD is working closely with a coalition of water interests to evaluate the impacts of the Bay–Delta Plan and the Delta Conveyance Project to understand the implications for power generation and SMUD's water rights and hopefully agree upon a voluntary agreement substitute for a regulated process.

Federal Legislation that Impacted SD-11

Tax Policy

As a municipal utility, SMUD relies on municipal bonds to finance infrastructure, and therefore has continued to advocate for maintaining the longstanding tax exemption for municipal bond interest. The 2017 tax reform law preserved the general exemption, but removed it for advance refunding bonds, which are used to effectively refinance an original bond. SMUD has worked individually and through coalitions like Municipal Bonds for America, APPA, and the Alliance to Save Energy's 50X50 Commission to restore the exemption for advance refunding bonds.

Bipartisan bills in both the House and Senate have been proposed that would restore advanced refunding. In addition, a provision to restore advance refunding was included in the bond financing title of an early House version of the Build Back Better Act. However, the Build Back Better framework released in late October omitted the advance refunding provision and is unlikely to be replaced in future versions.

Pole Attachments

Municipal utilities are exempt from federal regulation of pole attachments under Section 224 of the Federal Communications Act. However, in September 2018 the Federal Communications Commission (FCC) issued a declaratory order and ruling reinterpreting other sections of the law to impose fee limits and timelines on pole attachment applications. APPA challenged the legality of this order, and the Northwest Public Power Association (NWPPA) filed an amicus brief in June 2019. On August 12, 2020, the 9th circuit rejected APPA's challenge and the 9th circuit has denied en banc review of this decision. APPA is considering next steps. SMUD has expressed to its delegation concerns about this federal intrusion, noting that it has developed pole attachment agreements with telecom carriers. Rep. Anna Eshoo (D-CA) introduced legislation in January 2019 to nullify the FCC's order, and Senator Dianne Feinstein (D-CA) sponsored similar legislation in the Senate in June 2019. Since introduction, the bills gained 59 and 8 Democratic co-sponsors, respectively, but failed to gain bipartisan support or traction in either chamber, and have not been reintroduced in the current congressional session.

Appropriations

As has been customary for many years, Congressional appropriators failed to pass yearly funding bills before the end of the fiscal year (Sept 30). In early August, the Senate Appropriations Committee passed 3 out of 12 funding bills for FY22 – the Energy and Water, Agriculture, and Military Construction bills – but none have been considered by the full Senate. Though the House passed a number of FY22 bills in June, momentum stopped as the end of the fiscal year approached. Shortly before midnight on Sept. 30, Congress passed a Continuing Resolution until Dec. 3

Spent Nuclear Fuel Removal

As in recent years, the House and Senate appropriations bills have harmonized language around spent fuel. The bills would allocate \$20 million for spent fuel and authorize the Department of Energy to create one or more interim storage facilities, with priority for fuel from permanently shut down facilities. However, there has been no

change in the broader political dynamic that has caused congressional leaders to strip the funding and authorization from the final package.

Federal Regulatory Issues that Impacted SD-11

Federal Energy Regulatory Commission (FERC) Order 1000

SMUD participates in Order 1000 regional transmission planning through WestConnect, a regional planning entity that is comprised of member transmission providers (both jurisdictional and non-jurisdictional transmission providers) with service areas consisting of all or portions of eleven states. WestConnect members work collaboratively to jointly plan transmission facilities, assess stakeholder and market needs and develop cost-effective enhancements to the western wholesale electricity market.

In 2015, FERC accepted WestConnect's withdrawal rights for non-jurisdictional transmission providers such as SMUD. Accordingly, if costs are allocated for particular transmission projects that are unacceptable, the non-jurisdictional transmission provider has a right to withdraw from the cost allocation determination. El Paso Electric, a WestConnect jurisdictional transmission provider, has appealed FERC's decision in the 5th Circuit Court of Appeals contending that a non-jurisdictional's decision not to accept cost allocation for a project will cause free-ridership. However, the jurisdictional transmission providers have worked with the non-jurisdictionals to develop a revised WestConnect structure that addresses the jurisdictionals' free-ridership concern, while at the same time, retaining the important ability for non-jurisdictional transmission providers to withdraw from cost allocation. The updated structure will be filed at FERC in the coming months, and if FERC accepts the changes to WestConnect, El Paso will dismiss its lawsuit.

Meanwhile, this past summer, FERC issued an Advanced Notice of Proposed Rulemaking: Building for the Future Through Electric Regional Transmission Planning and Cost Allocation and Generator Interconnection (ANOPR) seeking comments on the potential need for reforms or revisions to existing regulations (including Order 1000) to plan the grid for the future. SMUD worked with the Large Public Power Coalition (LPPC), APPA and the Transmission Agency of Northern California (TANC) to develop separate comments in response to the ANOPR. FERC also hosted a technical conference with industry experts to discuss certain issues in the ANOPR. We will continue to monitor the rulemaking to ensure our public power interests are represented.

EIM and EDAM

SMUD has a direct interest in finding long-term solutions to the challenges posed by the integration of intermittent resources, such as wind and solar. One solution has been the development of a western EIM operated by the CAISO. In general, the EIM is a sub-hourly energy platform that automatically clears and dispatches the lowest cost electricity available to serve demand on a real-time basis.

SMUD received authorization from the BANC Commission and SMUD's Board to participate in the EIM, and SMUD launched in spring of 2019 under what is referred to

as “Phase 1” of BANC’s EIM participation.

SMUD has successfully participated in the EIM since go-live on April 3, 2019, providing operational flexibility and financial net benefits to date. Several of the remaining BANC members, the Modesto Irrigation District and the cities of Redding and Roseville, along with WAPA – Sierra Nevada Region (which resides in the BAA but is not a member of BANC) joined the EIM on March 25, 2021 under what is referred to as BANC EIM “Phase 2.” This broader BANC resource participation in EIM has resulted in greater economic benefits and a greater ability to integrate and manage intermittent resources within the BANC BAA.

Given the success of EIM, the CAISO, with the support of SMUD and BANC, as well as other EIM participants, launched a stakeholder initiative in 2019 to develop an extension of the EIM real time framework to the CAISO’s day ahead market, referred to as the EDAM. Like EIM, EDAM would broaden the access to regional resources for the reliable integration of renewable resources, only over a longer (day ahead) time horizon, and participation is voluntary. The CAISO paused the EDAM initiative for approximately a year while it made market enhancements for summer 2021 to address deficiencies observed during the summer 2020 heatwave outages. The CAISO recently relaunched the EDAM initiative, bringing in broader stakeholder participation, with hopes of launching participation in early 2024. While a handful of EIM Entities have begun to question the feasibility of an EDAM, SMUD and other EIM Entities believe EDAM is an important step forward in the evolution of Western energy markets and intermittent resource integration by allowing participants to decommit less efficient resources in the day ahead timeframe, as opposed to only in the shorter real time window. Thus, EDAM aligns well with SMUD’s 2030 Zero Carbon Plan goals. Moreover, like EIM, EDAM remains a voluntary market, allowing SMUD the added flexibility of pivoting later, should better options arise in the future.

RESOLUTION NO. 21-12-04

WHEREAS, SMUD is committed to preserving public access and participation in meetings of the Board of Directors and to the safety of meeting attendees; and

WHEREAS, all meetings of the Board of Directors are open and public, as required by the Ralph M. Brown Act (Gov't Code, §§ 5495054963) ("Brown Act"), so that any member of the public may attend, participate in, and watch SMUD's governing body conduct its business; and

WHEREAS, a required condition is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code section 8558; and

WHEREAS, another condition is that state or local officials have imposed or recommended measures to promote social distancing, or, the legislative body determines that meeting in person would present imminent risks to the health and safety of attendees; and

WHEREAS, on September 28, 2021, the Sacramento County Health Officer issued a Teleconferencing Recommendation stating:

Public meetings bring together many individuals (both vaccinated and potentially unvaccinated), from multiple households, in a single indoor space for an extended time. For those at increased risk for infection, or subject to an isolation or quarantine

order, teleconferencing allows for full participation in public meetings, while protecting themselves and others from COVID-19.

Utilizing teleconferencing options for public meetings is an effective and recommended social distancing measure to facilitate participation in public affairs and encourage participants to protect themselves and others from COVID-19

; and

WHEREAS, Executive Order N-21-21 was issued on November 10, 2021, extending the California State of Emergency due to the threat of COVID-19 through March 31, 2022; and

WHEREAS, under current state of emergency conditions it would be impractical for SMUD to take steps necessary to prevent imminent risks to the health and safety of attendees, such as by holding public meetings outdoors, ensuring public meeting attendees are vaccinated, have appropriate face coverings, and wear them consistent with public health guidance; and

WHEREAS, all meetings, agendas, meeting dates, times, and manner in which the public may participate in the public meetings of the SMUD Board and offer public comment by telephone or internet-based service options including video conference are posted on the SMUD website and physically outside of SMUD's Headquarters Building; and

WHEREAS, by Resolution No. 21-10-01 adopted on October 12, 2021, this Board made findings that requisite conditions exist for the SMUD Board to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of section 54953; and

WHEREAS, by Resolution No. 21-10-03 adopted on October 21, 2021, this Board made findings that requisite conditions exist for the SMUD Board to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of section 54953; and

**BE IT RESOLVED BY THE BOARD OF DIRECTORS
OF THE SACRAMENTO MUNICIPAL UTILITY DISTRICT:**

Section 1. Risks to Health and Safety of Attendees. The Board has reconsidered the circumstances of the state of emergency and hereby finds that the state of emergency continues to directly impact the ability of the members to meet safely in person; the Sacramento County Health Officer has recommended teleconferencing as way to promote social distancing; and holding SMUD Board meetings in person would present imminent risks to the health and safety of attendees.

Section 2. Remote Teleconference Meetings. SMUD staff are hereby authorized and directed to take all actions necessary to carry out the intent and purpose of this Resolution, including conducting open and public meetings in accordance with section 54953(e) and other applicable provisions of the Brown Act.

Section 3. Effective Date of Resolution. This Resolution shall take effect immediately upon its adoption and shall be effective until the earlier of (i) January 10, 2022, or (ii) such time the Board of Directors adopts a subsequent resolution in accordance with Government Code section 54953(e)(3) to extend the time during which the SMUD Board may continue to teleconference without compliance with paragraph (3) of subdivision (b) of section 54953.

RESOLUTION NO. 21-12-08

WHEREAS, the **Talent and Technology Transformation Project (T3 Project)** is sponsored by the SMUD People Services & Strategies Department (PS&S) and is intended to replace disparate technology platforms and manual processes currently used by staff to perform a wide variety of Human Resource functions across the organization; and

WHEREAS, in order to strategically support and staff the **T3 Project**, with the goal to implement a fully integrated Human Experience Management platform, **SAP SuccessFactors**, SMUD has adopted a phased approach by awarding a master contract suited to accommodate the full **T3 Project** lifecycle to include robust Discover and Prepare activities prior to each phase, and

WHEREAS, Contract No. 4500128620 with **EPI-USE America, Inc.** was awarded on a competitive basis in August 2021 for consulting, change management, training and implementation services associated with the **T3 Project** for the period of August 16, 2021, to March 31, 2022, for a not-to-exceed amount of \$263,500 to cover the Discover and Prepare activities for **Phase 1 Implementation**; and

WHEREAS, the need for additional scope, schedule and funds was identified during the Discover and Prepare activities for **Phase 1 Implementation**, which includes eight modules (Employee Central, EC Payroll, Time & Attendance, BenefitFocus, Onboarding & Recruiting, Goal Management, Reports & Queries, and Workforce Analytics); and

WHEREAS, staff will also need to undertake Discover and Prepare activities for **Phase 2 Implementation**, which includes seven modules (Compensation, Performance Management, Learning, Succession & Development, Forecasting & Scheduling, Reports & Queries, and Workforce Analytics); and

WHEREAS, increasing the contract amount, extending the expiration date, and adding scope will allow SMUD to continue forward with the

transformation and replacement of its outdated Human Resource systems and manual processes and is in its best interests; **NOW, THEREFORE,**

**BE IT RESOLVED BY THE BOARD OF DIRECTORS
OF THE SACRAMENTO MUNICIPAL UTILITY DISTRICT:**

Section 1. That this Board authorizes the Chief Executive Officer and General Manager, or his designee, to extend the contract expiration date by two years to March 31, 2024, increase the contract amount by \$6,876,612, from \$263,500 to \$7,140,112, and to add scope required for **Phase 1 Implementation** of the of the **SAP SuccessFactors** Human Experience Management modules and to start preparatory activities for **Phase 2 Implementation** under the **Talent and Technology Transformation Project (T3 Project)** for Contract No. 4500128620 with **EPI-USE America, Inc.**

Section 2. The Chief Executive Officer and General Manager, or his designee, is authorized to make future changes to the terms and conditions of the contract that, in his prudent judgment: (a) further the primary purpose of the contract; (b) are intended to provide a net benefit to SMUD; and (c) do not exceed the authorized contract amounts and applicable contingencies.

RESOLUTION NO. 21-12-09

WHEREAS, Governmental Accounting Standards Board (GASB) codification section Re10 Regulated Operations allows the deferral of operating revenues from the current period to a future period as a regulatory liability for rate-making purposes; and

WHEREAS, this deferral will help off-set one-time expenditures that were not identified during the annual budget process; and

WHEREAS, SMUD will be able to mitigate risks that may occur from unforeseen or one-time events which may have a significant financial impact on SMUD, such as, but not limited to, catastrophic events, wildfire costs, and additional 2030 Zero Carbon Plan expenditures; and

WHEREAS, this deferral will provide reserves to cover large contingencies while limiting or leveling out the impact of cost increases to ratepayers; and

WHEREAS, normal accounting practices would be to recognize the revenues and expenses in the accounting period incurred; and

WHEREAS, pursuant to GASB codification section Re10 Regulated Operations, for rate-making purposes, it would be appropriate to match the expenses with the revenues so that the revenue is recognized in the same period in which the amount is expended and will, therefore, more accurately reflect revenues and expenses in the same period; **NOW, THEREFORE,**

BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE SACRAMENTO MUNICIPAL UTILITY DISTRICT:

That this Board authorizes SMUD's Accountant to defer recognition of \$35 million of 2021 operating revenues to offset future one-time specific

expenditures in order to match such expenditures in the appropriate accounting period for rate-making purposes.

President Bui-Thompson then turned to Discussion Calendar Items 12.a. and 12.b., pertaining to the 2022 Budget. She stated Item 12.a. is to adopt the 2022 Budget which, among other things, establishes:

- An Operations and Maintenance Budget of \$1,164 million (including Public Goods Charge of \$63.6 million);
- A Debt Service budget of \$212.2 million;
- A Capital and Reserve Budget of \$359.9 million; and
- Authorized contingencies.

She stated Item 12.b., is a Declaration of Intent to Issue Debt to create \$400 million of additional bonding authority to reimburse for qualifying capital expenditures, and Official Intent to reimburse for 2022 and 2021 capital expenditures from bond proceeds, which is required to maintain tax-exempt financing capability.

Jennifer Restivo, Director of Planning & Performance, gave a presentation regarding the 2022 Budget and borrowing authority. A copy of the slides used in her presentation is attached hereto.

Director Tamayo stated that some comments had been submitted with regard to linkage between the budget and the 2030 Zero Carbon Plan. He stated he did not know if this was the appropriate time to address those comments.

Mr. Lau thanked Rick Codina for submitting comments containing some concerns about operation of the Upper American River Project (UARP) and Cosumnes Power Plants. He stated that certain recreational improvements are part of the requirements under the UARP's license and that work on the boat ramp was scheduled for 2022 due to drought-related low reservoir levels. He stated that the Cosumnes plant was the most efficient thermal plant and was scheduled for a major overhaul once every three years and would be offline for two months. This translates to the budget increase as SMUD will look to the market to purchase lower or zero carbon power that can be used to offset the reduction caused by the plant being offline. He noted that staff would provide a detailed response to Mr. Codina's concerns.

General Counsel Lewis clarified that Mr. Codina's comments had been submitted for the special meetings of the joint powers agencies (JPAs) that

would immediately follow the Board meeting. She noted he was not currently in attendance, but he would be given the opportunity to provide his comments at the JPA meetings.

No public comment was forthcoming on Discussion Calendar Items 12.a. or 12.b.

There being no further discussion, President Bui-Thompson entertained a motion to approve Discussion Calendar Item 12.a. to adopt the 2022 Budget. Vice President Rose moved for approval of Discussion Calendar Item 12.a., Director Fishman seconded, and Resolution No. 21-12-10 was unanimously approved.

RESOLUTION NO. 21-12-10

WHEREAS, the proposed 2022 Budget is expected to result in a positive net income for 2022; **NOW, THEREFORE**,

**BE IT RESOLVED BY THE BOARD OF DIRECTORS
OF SACRAMENTO MUNICIPAL UTILITY DISTRICT:**

Section 1. This resolution may be referred to as the 2022 Budget Resolution.

Section 2. (a) There is hereby appropriated from the General Fund sufficient monies for the payment of demands against SMUD which relate to obligations incurred for the purposes and within the amount specified for such purposes in the following projection of SMUD's program for the period January 1, 2022, through December 31, 2022.

Operations and maintenance:

Commodity - purchased power, fuel, and wheeling	\$440,680,590
-------------------------------------------------	---------------

Public Goods	63,584,820
--------------	------------

Customer, energy delivery, energy operations, internal service, technology, corporate services and Rancho Seco	659,576,669
----------------------------------------------------------------------------------------------------------------	-------------

Sub-Total	\$1,163,842,080
-----------	-----------------

Debt Service	212,158,020
Capital and reserve	359,911,078

TOTAL	\$1,735,911,178
--------------	------------------------

(b) The Commodity line item budget is based on assumptions of average rainfall and temperatures during 2022. SMUD has in place a Hydro Generation Adjustment (HGA) mechanism whereby, based on the actual rainfall amounts between April 1, 2021 and March 31, 2022 in comparison to the budget assumptions, SMUD may transfer funds to or from the Hydro Rate Stabilization Fund and, once pre-established limits are met, increase or decrease customer rates. The Commodity line item budget will be increased or reduced based on the actual transfer and/or change in customer revenues from the HGA adjustment.

(c) SMUD also has in place or may enter into additional agreements under which monies will be received by SMUD in the event actual weather conditions are drier than average. In the event of below average rainfall, the Commodity line item budget will be increased by an amount equal to the payments received under these contracts.

(d) SMUD has budgeted to receive 661 gigawatt hours of energy in 2022 under its contract with the Western Area Power Administration (WAPA). This energy primarily is generated at Central Valley Project hydroelectric plants, and the actual quantity of energy received will be dependent on rainfall, carryover water storage and operation of the WAPA system to meet contractual water deliveries. Because WAPA generation facilities are spread over a wide area, insurance is not practical for offsetting variations of energy deliveries due to weather. One purpose of the Rate Stabilization Fund is to mitigate such variations. The Accountant is hereby authorized to transfer funds as follows based on actual WAPA energy deliveries in the 2022 season: for every megawatt hour below 661,000 transfer NP15 EZ Gen Hub (NP15) power price per MWh from the Fund, up to a maximum of \$30 million; for every megawatt hour over 661,000 transfer the NP15 power price per MWh into the Fund, up to a maximum of \$30 million. The Commodity line item budget will be increased or reduced accordingly. The NP15 power price for the transfers is the weighted average of actual NP15 power prices based on when the energy from WAPA is received by SMUD on an hourly basis.

(e) Budgeted energy purchases necessary to meet customer energy sales requirements (10,166 GWh) are based on average weather conditions and expected customer growth in 2022. Should actual weather conditions or growth levels cause SMUD retail sales and related energy requirements to be higher, the Commodity line item budget will be increased by the NP15 power price per megawatt-hour of additional retail energy sales to offset the cost of these sales.

(f) SMUD participates in regulatory programs such as Low Carbon Fuel Standard (LCFS) and Cap-and-Trade. Under these programs,

SMUD has the option to monetize the credits and allowances applicable to these programs through sales transactions. When SMUD collects revenues through these sales, it is required to apply the proceeds toward specific expenses that support the program goals. An additional purpose of the Rate Stabilization Fund is to mitigate fluctuations from regulatory programs. The Accountant is hereby authorized to transfer funds to or from the Rate Stabilization Fund to match LCFS and Cap-and-Trade revenues with expenses. The budgeted amount will be increased or decreased accordingly.

(g) For purposes of Section 11891.6 of the Municipal Utility District Act, there shall be deemed added to each line item, in section 2a, a 10 percent contingency. Demands against SMUD which relate to obligations incurred for each line item and are within such line item amount plus the 10 percent contingency may be paid without prior specific approval of this Board, provided the total of such payments during 2022 may not exceed the total budget amount plus this 10% contingency, plus the commodity contingency and adjustments for weather hedge contracts, higher retail sales and Rate Stabilization transfers as set forth in paragraphs (b), (c), (d), (e) and (f) above.

Section 3. Demands against SMUD may be paid without the prior specific approval of this Board if they relate to obligations incurred for the purpose and within the amounts specified in Section 2, provided such demands are approved by the CEO & General Manager or someone to whom he has delegated such approval authority. It is the purpose and intent of this paragraph to delegate to the CEO & General Manager authority to make purchases, to negotiate and execute contracts, and expend funds in any manner necessary or appropriate to the administration of the business affairs of SMUD, all within the amounts and for the purposes set forth above, and subject to the provisions of existing law and of all the duly passed resolutions of this Board, including the Board-approved delegations of authority.

Section 4. At monthly intervals the Treasurer shall transfer from the General Fund appropriate amounts into each of the various funds established to service SMUD's general obligation indebtedness, its Electric System Revenue

Bond indebtedness, and its Electric Revenue Bond indebtedness in approximately equal installments as set forth in the tabulations on file with the Accountant. Investment authority, for all funds, is delegated to the Treasurer for a one-year period in accordance with California Code Section 53607.

Section 5. The number of permanent full-time employees during 2022 shall not exceed 2,210 employees plus a five percent contingency without further authorization of this Board.

Section 6. The Public Goods Charge shall be adjusted from 16.51 percent of 1994 revenues to 15.05 percent of 1994 revenues. The percentage allocation for the public goods charge expenditures shall be adjusted from 7.82 percent to 6.61 percent for low-income assistance, and from 5.45 percent to 6.56 percent for energy efficiency, and from 3.13 percent to 1.88 percent for research and development, and from 0.11 percent to 0.00 percent for new renewable generation.

Section 7. The authorization for spending includes \$51.3 million of commodity for Valley Clean Energy Alliance which will be reimbursed in full to SMUD.

WHEREAS, in order to provide reliable electric service to its customers, it is necessary for SMUD to make certain capital improvements and other capital expenditures to its system, which capital improvements and other capital expenditures are designed to have useful lives of up to 40 years, or more; and

WHEREAS, to fairly apportion the costs of such capital improvements and other capital expenditures among SMUD's customers who will receive the benefits of such improvements, SMUD has determined to authorize the financing of such improvements and expenditures with bonds of SMUD; and

WHEREAS, to provide bond financing for such improvements and expenditures, it now appears necessary to increase the authorized issue of revenue bonds that may be issued by SMUD pursuant to the Act; and

WHEREAS, the Board of Directors of SMUD desires to inform its customers and the public of its plans for financing capital improvements and other capital expenditures to its system by specifying certain items for which the proceeds of said revenue bonds are to be used, which uses shall not include daily maintenance and operations costs; **NOW, THEREFORE,**

**BE IT RESOLVED BY THE BOARD OF DIRECTORS
OF SACRAMENTO MUNICIPAL UTILITY DISTRICT:**

Section 1. The Board of Directors of SMUD declares its intention to authorize the issuance of additional revenue bonds or Clean Renewable Energy Bonds for the purpose of financing, in whole or in part, the costs of the capital items identified in SMUD's 2022 capital budget, 2021 capital expenditures not previously financed, the prepayment of purchased power or natural gas and the purchase of natural gas reserves, pipelines or storage facilities, for all of which SMUD is authorized by law to issue such bonds. SMUD has paid or reasonably expects to pay certain expenditures (the "Reimbursement Expenditures") in connection with such capital items prior to the issuance of such bonds, and hereby officially declares its intent to use certain proceeds of such bonds to reimburse the Reimbursement Expenditures. The declarations

contained in this section are made solely for purposes of establishing compliance with Section 1.150-2 of the U. S. Treasury Regulations, and do not bind SMUD to make any expenditure, incur any indebtedness or proceed with the above-mentioned capital expenditures.

Section 2. The maximum principal amount of the additional revenue bonds proposed to be issued under this supplemental resolution is \$400,000,000. Such maximum principal amount is in addition to the \$7,855,000,000 principal amount of revenue bonds authorized pursuant to the Prior Resolutions. Such additional bonds may be issued in series from time to time, and it shall not be necessary that all of the bonds proposed to be issued be issued at any one time.

Proceeds from the issuance of these bonds will be used to finance capital improvements identified in SMUD's 2022 capital budget, 2021 capital expenditures not previously financed, capital expenditures for the prepayment of purchased power or natural gas and the purchase of natural gas reserves, pipelines or storage facilities. The declarations contained in this section are made solely for purposes of establishing compliance with Section 12852 of the California Public Utilities Code, and do not bind SMUD to make any expenditure, incur any indebtedness or proceed with the above-mentioned capital expenditures.

Section 3. The maximum term of any of such bonds is 40 years. Said maximum term shall be calculated in each case from the date of each series of bonds in the event the maximum authorized amount is divided into two or more series.

Section 4. The maximum rate of interest to be payable upon such bonds shall not exceed the interest rate per annum equal to the greater of fifteen percent (15 percent) per annum or the yield of United States Treasury bonds having a remaining term equal, as nearly as practicable, to the final maturity of such bonds, as determined by SMUD as of the date of sale of such bonds, plus three percent (3 percent). The maximum discount with respect to such bonds shall not exceed ten percent (10 percent).

Section 5. This resolution shall take effect immediately, subject only to the right of referendum provided in Article 6a of Chapter 6 of Division 6 of the California Public Utilities Code (beginning at Section 12850 thereof).

Section 6. The Secretary of SMUD is hereby directed to publish a copy of this resolution once a week for two successive weeks in a newspaper of general circulation published within SMUD. At any time within 60 days after the date of the second such publication, a referendum petition signed by voters in number equal to at least three percent (3 percent) of the total vote cast, as defined in Section 11507 of the California Public Utilities Code, demanding the submission of this resolution to a vote of the voters of SMUD for their assent to the issuance of the proposed bonds, may be filed with the Secretary of SMUD. Upon presentation to the Secretary of SMUD of such a referendary petition, this resolution shall not be of effect unless and until it has been assented to by the voters.

President Bui-Thompson then turned to Discussion Calendar Item 13, discuss possible merit increase to the Chief Executive Officer and General Manager's base salary and/or performance bonus, pursuant to the Chief Executive Officer and General Manager's employment contract.

No public comment was forthcoming on Discussion Calendar Item 13.

The Board discussed the incredible accomplishments of Mr. Lau in light of the challenging goals he had been given in addition to the effects of the COVID-19 pandemic.

President Bui-Thompson moved for a merit increase for the Chief Executive Officer and General Manager to have his base salary increased by 17 percent for the coming year, and Director Tamayo seconded the motion.

Director Fishman stated he felt Mr. Lau was deserving of the increase, especially in light of his many accomplishments, but he was uncomfortable with such a high increase.

The Board then discussed that in comparison to the compensation offered at other large public power utilities, SMUD did not even fall within the average range. The Board acknowledged that while the increase might seem like a large jump, it was due to SMUD not keeping up with the market in the past, and it was important to fairly compensate leadership now and in the future. The Board noted that it would have taken a 26 percent (26%) increase in order to get close to industry average. There being no further discussion, President Bui-Thompson asked General Counsel Lewis to conduct the roll call vote.

Ms. Lewis clarified that the motion was to increase the Chief Executive Officer and General Manager's base salary by seventeen percent (17%) effective January 1, 2022, in accordance with the terms of the Chief Executive Officer and General Manager's employment contract, and President Bui-Thompson confirmed.

Resolution No. 21-12-12 was approved by a vote of 6-1, with Director Fishman voting no.

**BE IT RESOLVED BY THE BOARD OF DIRECTORS

ORGANIZATION SECURITY

1. DUES DEDCTIONS

- A. Employees who voluntarily join the OSE may authorize individual payroll deductions for dues, initiation fees, and general assessments, as well as any other membership benefit program sponsored by the OSE (hereinafter collectively “dues deductions”).
The OSE shall be responsible for maintaining records of bargaining unit employees who provide written consent to become OSE members and authorize dues deductions.
The OSE shall certify to SMUD the identity of such members and the amount of the dues deductions to be withheld from their paychecks. The OSE is not required to provide a copy of an individual authorization to SMUD unless a dispute arises about the existence or terms of the authorization.
- B. SMUD shall deduct from the paychecks of each employee who voluntarily authorizes dues deductions as certified by the OSE, or pursuant to an authorization form tendered to SMUD by the OSE or employee, the total amount of dues certified by the OSE per month. SMUD shall promptly remit to the OSE the total amount deducted, together with a list identifying each bargaining unit employee from whom a deduction was made from their paychecks.
- C. SMUD will implement any start or change to the amount of a bargaining unit employee’s payroll deductions during the first full pay period following notification of such change by the OSE.
- D. If an employee desires to revoke, cancel or change their dues deduction authorization, SMUD shall direct the employee to the OSE. SMUD will rely on all reasonable representations from the OSE as to employee authorizations.
- E. Hold Harmless. The OSE shall indemnify, defend, and hold SMUD, its officers, agents and employees, harmless against any and all claims, demands, suits, orders, or judgments, or other forms of liability (including wages, fines, reasonable attorneys’ fees and costs associated therewith) that arise out of or by reason of action taken or not taken by SMUD for purposes of complying with any of the dues deduction provisions of this MOU.
- F. SMUD shall provide Employee Rosters for Unit 2 employees monthly at the pay cycle when union dues are deducted. The Employee Rosters shall be provided as an Excel spreadsheet that includes the following information: first and last name, personal mailing address, personal telephone number, personal email address, subgroup (full-time, part-time, limited-term, casual), organizational unit, position title, current salary, position start and end date(s), hire and rehire date(s), and SMUD mail stop.
- G. SMUD shall notify the OSE of an employee’s return to paid status within ten (10) working days following an unpaid leave of absence in excess of thirty (30) days so the OSE may resume collection of OSE dues.

2. OSE RELEASE TIME

- A. Officers and Directors. Once each calendar year during the month of January, the OSE shall provide SMUD with a list of the OSE Officers and Directors. In meeting both the organizational business needs and the employee representation obligations of the OSE, the OSE may allocate release time and OSE duties among these key individuals.
 - 1) SMUD shall make arrangements to accommodate requests from OSE Officers and Directors for a reasonable amount of time off from their regular assignments to attend scheduled meetings with SMUD management, participate in SMUD projects, and represent bargaining unit employees. Such time off is subject to prior notice and approval of the immediate supervisor of the individual making the request.
 - 2) An OSE representative's time spent conducting OSE business should be charged to the appropriate Work Order Number.
- B. OSE Leave Bank. SMUD and the OSE agree to establish an OSE Leave benefit and create an OSE Leave Bank to support it.
 - 1) OSE Leave is paid leave that may be utilized by OSE members to conduct OSE business and/or to attend seminars, conferences, conventions, or other meetings at the local, state and national level. An OSE member who is designated by the OSE President or, in the President's absence, the Vice President, may take OSE Leave subject to the advance approval of the employee's immediate supervisor.
 - 2) To establish and maintain the OSE Leave Bank, a Unit 2 employee may contribute some or all of the employee's accumulated annual leave or compensatory time off to the OSE subject to the following conditions:
 - a) A Unit 2 employee may contribute to the OSE Leave Bank in one (1) hour increments consisting of one (1) or more hours;
 - b) When donated, leave shall be credited to the OSE Leave Bank at the current hourly rate of the donating employee;

3. USE OF SMUD FACILITIES

- A. Bulletin Boards – The OSE shall be provided a reasonable amount of bulletin board space in specifically designated areas for posting organization bulletins. The OSE shall be responsible for removing out-of-date materials, but SMUD reserves the right to remove out-of-date or prohibited material.
 - 1) The OSE shall provide up to twenty-five (25) bulletin boards to be installed by SMUD at mutually agreeable locations.
- B. Inter-Office Mail – The OSE shall be allowed to use SMUD's inter-office mail to communicate with OSE represented employees. OSE mail shall be pre-sorted by mail stop.

C. Internal Email – The OSE shall be allowed to use SMUD’s internal email system to communicate with OSE represented employees.

- 1) The OSE President and Vice President are the only OSE members authorized to use SMUD's internal email systems (e.g., Outlook) to send no-reply notices to the OSE membership.
- 2) Email notices shall not contain any confidential information and shall be in the nature of announcements regarding OSE activities (i.e. OSE membership meetings, OSE election results, OSE meeting minutes and reports, OSE social events, and OSE member participation at community events).
- 3) No-reply email notices of any other nature must have approval of the SMUD Employee Relations Manager prior to distribution.
- 4) Copies of the no-reply notices shall be sent to the SMUD Employee Relations Manager at the time of distribution to the OSE membership.
- 5) A maximum of 52 no-reply notices may be sent to the OSE membership per calendar year, with the understanding that this allowance for OSE no-reply email notices is an exception to “acceptable use” under SMUD’s Electronic Information Policy (AP 05.02.04). This agreement does not preclude compliance with all other provisions of this SMUD policy.

D. Use of Meeting Rooms/Access to Work Locations

- 1) SMUD shall make conference rooms available to the OSE, subject only to SMUD’s established procedures for the reservation and use of such facilities by SMUD’s internal organizational units.
- 2) OSE representatives shall be granted reasonable access to work locations to engage in those activities necessary to the representation of employees assigned to Unit 2.

4. UNION BUSINESS LEAVE

SMUD and the OSE agree to establish an OSE Leave Benefit in addition to the OSE Leave Bank.

- A. OSE Leave is leave that may be utilized by OSE members to conduct OSE business and/or to attend training, seminars, conferences, conventions, or other meetings at the local, state and national level.
- B. Requests for OSE Leave shall be made at least two (2) weeks in advance and shall be directed to the Manager, Employee Relations, unless otherwise agreed to between SMUD and the OSE. Such requests shall be made by the OSE President, or in the President’s absence, the Vice President.
- C. In an emergency, the Manager, Employee Relations shall have the authority to cancel scheduled OSE Leave.

- E. Employees utilizing OSE Leave shall remain on SMUD's payroll and shall continue to receive CalPERS contributions and service credit. Employees on OSE Leave shall suffer no loss of compensation, benefits, or loss of seniority.
- F. The OSE shall reimburse SMUD for the employee's salary and fringe benefits at the then current activity rate for their position while the employee is on OSE Leave. The OSE shall provide such reimbursement within thirty (30) calendar days following receipt of invoice.
- G. The OSE agrees to indemnify and hold SMUD harmless against any and all liability for loss, damage, cost or expense which SMUD may incur by reason of bodily injury, including death, to any person or persons or by reason of damage to or destruction of property, including the loss of use thereof, arising out of or in any way connected with the program described herein, whether or not due in whole or in part to any act, omission or negligence of SMUD, active or passive, excepting only such injury, loss or liability as may result from the criminal or willful misconduct of SMUD, its agents or employees, other than employees participating in this program.
 - 1) Workers' Compensation. Where payments are made to SMUD employees under a workers' compensation or disability benefits law for bodily injury or death arising out of or in any way connected with the program described herein, the OSE shall make full and complete reimbursement to SMUD to the extent such payment increases SMUD's workers' compensation or disability benefit costs, whether such increase in cost occurs in the form of an increase in premiums or contributions, reduction in dividends or premium refunds, or otherwise.
 - 2) Notice and Defense of Claims. In the event any claim or demand is made or suit or action is filed against SMUD alleging liability for which the OSE shall indemnify and hold harmless SMUD under this Section, SMUD shall promptly notify the OSE thereof, and the OSE shall bear all costs and expenses, including legal fees, to settle, compromise or defend the same in such manner as it, in its sole discretion, deems necessary or prudent.
 - 3) Insurance Representation. The OSE agrees to carry the amount of self-insurance or comprehensive liability insurance, including contractual liability coverage, covering the indemnification and defense obligations set forth herein, subject to such types and amounts of self-insurance, retentions, or deductibles as are consistent with good business practices in the industry.

5. OSE ACCESS TO NEW EMPLOYEE ORIENTATIONS

SMUD shall notify the OSE of the time and location of all new employee orientation (NEO) meetings at least ten (10) working days prior to the meeting, unless an urgent and unforeseeable need for an orientation meeting precludes SMUD from providing such notice. If ten (10) working days advance notice cannot be provided, SMUD shall provide as much advance notice as possible. The OSE shall be afforded thirty (30) minutes during the NEO to present information about the OSE to new OSE employees.

Any employee may be required to work overtime to meet the needs of SMUD. A willingness to work overtime when requested is a condition of employment. When permitted by the work situation, overtime shall be distributed as equally as possible subject to the following:

- A. Overtime is first allocated to qualified volunteers within the appropriate classification assigned to the applicable work group/division. In the absence of qualified volunteers, the supervisor may either assign employees within the applicable work group/division or may seek other volunteers pursuant to Sections 2.B and 2.C of this Article.

CTO credits that have not been used by the end of payroll period 21 shall be paid to the employee on payroll period 22 at the employee's then current ESN rate of pay.

For purposes of this provision, the CTO year shall be the beginning of payroll period 22 through the end of payroll period 21 of the following year.

- B. The rest period begins when the employee is released from duty. Employees shall be compensated during designated rest periods as follows:
- 1) If any part of the rest period falls within the employee's regular work hours, they shall be paid for those hours at the straight-time rate of pay.
 - 2) Employees shall not be compensated for lunch periods that fall within designated rest periods.

- C. When an employee's rest period ends during their regular work hours, they may report for work at any time during their regular work hours or may report to work on their next regular work day, subject to SMUD approval. Boot outsoles shall be puncture resistant to provide protection from nails and sharp objects. For definition purposes, no athletic type shoe (i.e., tennis shoes, jogging shoes or basketball shoes, etc.) will meet the definition of proper foot protection.

- 5) All OSE-represented employees who are assigned to the Energy Specialist classification series shall be reimburse up to \$300.00 every two (2) years for the purchase of and/or repair of appropriate footwear and the purchase of insoles/inserts approved by SMUD.

Proper foot protection shall be worn at all times while on duty. Foot protection is defined as shoes or boots that are constructed of quality leather uppers or similar material (i.e., canvas or woven mesh) with sturdy sole and heel, made of durable slip resistant and/or oil resistant material. For definition purposes, no athletic type shoe (i.e., tennis shoes, jogging shoes or basketball shoes, etc.) will meet the definition of proper foot protection.

- 6) All OSE-represented employees who are assigned to the Engineering Designer classification series (e.g., line designer and substation designer) shall be reimburse up to \$300.00 every two (2) years for the purchase of and/or repair of appropriate footwear and the purchase of insoles/inserts approved by SMUD.

Proper foot protection shall be worn at all times while on duty. Foot protection is defined as boots that are constructed of quality leather uppers with a sturdy sole and heel, made of durable slip resistant and/or oil resistant material. Leather uppers shall be six (6) inches minimum to provide ankle support for walking on uneven surfaces and through gravel. Boot outsoles shall be puncture resistant to provide protection from nails and sharp objects. For definition purposes, no athletic type shoe (i.e., tennis shoes, jogging shoes or basketball shoes, etc.) will meet the definition of proper foot protection.

- 7) After the purchase and/or repair of the appropriate footwear, employees will submit the proper receipt(s) to their supervisor for reimbursement.

- 8) SMUD acknowledges that additional OSE classifications/positions may require special footwear to perform work safely. When an additional classification/position is identified as needing special footwear, employees will be considered eligible for reimbursement commensurate with the footwear required and frequency of use. SMUD agrees to meet and confer with OSE to establish footwear requirements and reasonable reimbursements for these classifications/positions.

2. CONTRACTING OUT

SMUD shall not contract for any work normally performed by classifications assigned to Unit 2 if such contracting is intended to reduce or has the effect of reducing the regular work force by attrition, demotion, displacement or lay off. Further, prior to any reduction in force of OSE represented employees, affected Unit 2 employees meeting the minimum qualifications of the job being contracted out shall be offered any bargaining unit work being performed by contractors. These assignments shall be of a temporary nature. All current rules concerning bumping and selection shall apply.

For the purpose of this Agreement, contracting out occurs when a Unit 2 position is filled temporarily by a non-OSE represented employee or by an outside contractor for any reason. SMUD agrees to notify the OSE in each instance of its intent to contract OSE bargaining unit work.

3. NO STRIKES/NO LOCKOUTS

During the term of this Agreement, SMUD agrees that there shall be no lockout. The OSE agrees that there shall be no authorized, concerted failure to report to work, cessation or interruption of work, slowdown, strike, boycott, or any type of organized or concerted interference with SMUD's business. Should any employee or group of employees commit any such acts in violation of this provision, the OSE agrees that it shall notify such employee(s) of their obligation pursuant to this Section and shall publicly discourage such acts.

4. TECHNOLOGICAL CHANGES

SMUD shall continue to provide the OSE with as much advance notice as practical of any technological changes that may have an impact on Unit 2 employees. In such circumstances, SMUD and the OSE shall meet and confer in an attempt to reach a mutual agreement regarding appropriate solutions. If the parties are unable to reach agreement, the matter shall be resolved pursuant to Article 22, Full Understanding/Non-Nullification, of this Agreement.

5. MEDICALLY RESTRICTED DUTY PROGRAM

Employees who are partially disabled due to an industrial illness or injury and cannot perform the full range of their regularly assigned duties may be provided limited duty work consistent with the employee's medical restrictions. SMUD shall make a reasonable effort to identify and provide the employee with a limited duty assignment. An employee so assigned shall continue to receive their base rate of pay when performing limited duty work. Unit 2 employees have priority when assigning Unit 2 limited duty work. SMUD will inform the OSE when assigning non-Unit 2 employees to perform limited duty work in Unit 2 positions.

6. JOB SHARING

For the purpose of this Section, job sharing is defined as the joint performance of the functions of a single position by two (2) employees. Unit 2 employees may voluntarily job share subject

to SMUD's approval. SMUD reserves the right to cancel a job-sharing arrangement at any time with thirty (30) calendar day's written notice to employees. Employees who are job sharing are eligible for the benefits afforded to part-time employees who are regularly scheduled to work twenty (20) or more hours and less than 40 hours (including overtime) per week. In all other respects, job sharing employees shall be treated consistent with their Civil Service status.

7. SENIORITY

Except as provided elsewhere in this Agreement or any side letter agreement between SMUD and the OSE, whenever seniority is used to make workplace decisions, such decisions shall be based upon SMUD seniority defined as an employee's total years of continuous SMUD employment. It includes temporary and part-time employment as long as the employment has been continuous.

8. TELECOMMUTING

For the purpose of this Section, telecommuting is defined as the performance of some or all of an employee's duties from a remote location. Unit 2 employees may volunteer to telecommute subject to the prior approval of SMUD. Telecommuting agreements shall be in writing. The terms of the telecommuting agreements shall be consistent with this Agreement. The telecommuting agreements also will contain a definition of a termination notice. SMUD shall forward a copy of the telecommuting agreement to the OSE President.

9. DONATION OF LEAVE

SMUD and the OSE agree that SMUD's Donation of Leave Program shall be modified to eliminate the donation of sick leave except as provided below:

In extraordinary circumstances only, the OSE may petition the Grievance Review Committee to authorize the donation of sick leave. The decision of the Grievance Review Committee is final.

ARTICLE 21

FULL UNDERSTANDING / NON-NULLIFICATION

1. FULL UNDERSTANDING

- A. This Agreement sets forth the entire understanding of the parties regarding the matters contained herein, and any other prior or existing understanding or Agreement by the parties, whether formal or informal, regarding such matters are hereby superseded. Except as provided in this Agreement, it is agreed and understood that all benefits and working conditions provided by this Agreement shall remain unchanged during the term of this Agreement, unless expressly modified by mutual agreement through the meet and confer process.
- B. With regard to terms and conditions of employment not expressly covered by this Agreement, the parties recognize that during the term of this Agreement it may be necessary or desirable for SMUD to make changes on matters within the scope of representation. If and when SMUD finds it necessary to make such changes, it shall notify the OSE at least thirty (30) calendar days prior to the proposed implementation. At the request of the OSE, the parties shall meet and confer in a good faith effort to reach agreement over such matters that fall within the scope of representation.
- If the parties are unable to reach agreement, the matter shall be resolved through the use of MED(iation)-ARB(itation). Agreements or decisions resulting from this process shall be binding on the parties.

2. CHANGE OF LAW AND NON-NULLIFICATION

If any provision of this Agreement, or the application of such provision(s), should be found invalid by any decree of a court of competent jurisdiction or by the reason of any existing or subsequently enacted legislation, or applicable administrative regulations (e.g. CalPERS), all other provisions of this Agreement shall remain in full force and effect. In such event, the parties shall meet and confer in good faith within thirty (30) calendar days in an attempt to develop a replacement for the provision(s) found to be invalid.

APPENDIX E

BENEFITS FOR UNIT 2 LIMITED-TERM, FULL-TIME EMPLOYEES

1. Dental, Medical, Vision, and Life Insurance Programs

- A. SMUD provides a number of plans from which eligible Unit 2 employees can choose. Eligibility for coverage and co-payment for each plan is the same for all eligible employees. The employee's coverage becomes effective the first month after employment as a limited-term employee. The employee must sign-up for the following coverages within thirty (30) calendar days of employment. Subsequent enrollment opportunities occur during the Annual Open Enrollment period or for allowable changes in status.
- 1) Medical Benefits
 - 2) Dental Benefits
 - 3) Vision Benefits
 - 4) Life Insurance - an age-based amount that equals 50% of the equivalent salary for a full-time employee rounded up to the nearest \$5,000.
- B. If an employee selects higher-cost medical plans or additional coverage for life insurance plans, the employee shall pay the additional premiums on a "pre-tax" basis. Please contact the People Services & Strategies Department for monthly premiums.

2. Flexible Benefits Program

- A. Limited-term, full-time employees in Unit 2 are given the opportunity to participate in SMUD's flexible benefits program to enroll in the following benefit plans: medical, dental, vision, and life insurance. This program allows the employee to choose which benefits they want for the calendar year.
- B. SMUD issues flex credits that give the employee purchasing power to "pay for" the benefits of their choice. Limited-Term employees receive a percentage of the flex credits allotted to Full-Time employees, as follows: 82.5% for 2022-2025. If the employee chooses benefits costing more than the flex credits provided by SMUD, the employee shall pay the difference through payroll deductions. The payments for most flexible benefits are made on a pre-tax basis, so the employee can save on taxes.
- C. If an employee is already covered and chooses not to enroll in SMUD-provided medical, dental, and/or vision plans, they can "opt out" of coverage and SMUD shall give the employee cash in exchange for the flex credits. Credits are paid to the employee on a monthly basis in the form of cash. Such payments are taxable income.

- D. Under the Flexible Benefits Program, base pay is the employee's annual earnings as of a certain date, excluding bonuses, commissions, overtime pay and other special compensation. Base pay for computing life insurance costs and coverage amounts is 50% of the equivalent salary for a regular employee.
- E. Contact the People Services & Strategies Department for the latest OSE Benefit Guide or individual plan documents for a more detailed explanation of the benefit options.

3. Supplemental Benefits

- A. Limited-Term, full-time employees may supplement their temporary disability payments with sick or annual leave credits. The employee cannot exceed 100% of their base salary.
- B. Limited-Term, full-time employees may participate in a 401(k) deferred compensation plan once they have completed one year of service that includes at least 1000 hours of work.
- C. The following are not available to Limited-Term employees:
 - 1) Extended Compensation
 - 1) Short-term Disability
 - 2) Long-term Disability
 - 3) Medical or Dependent Reimbursement Flexible Spending Accounts (FSAs) under the flexible benefits program.

President Bui-Thompson then turned to agenda item 15, statements from the public regarding items not on the agenda. She stated that in accordance with the Emergency Board Meeting Procedures, public comment for items not on the agenda would be provided to the Board electronically and placed into the record if received within two hours after the meeting ended.

General Counsel Lewis stated that a request to speak had been submitted, but the person was not logged into the meeting. She stated that written comments had been submitted and would be included in the record.

Public comment was received and entered into the record regarding Agenda Item 15, a copy of which is attached to these minutes, from the following member of the public:

- Peg Pinard

President Bui-Thompson then turned to Directors' Reports.

Vice President Rose reported on his attendance at the Fire Fighters Local 522 Holiday Event as well as the Young Professionals in Energy Event. He closed by reporting on a brief lecture he had provided to the Environmental Science and Environmental Studies course at Sac State.

Director Fishman reported on his speaking engagement at the Renaissance Society, a group of Sac State graduates and alumni, regarding SMUD's 2030 Zero Carbon Plan. He closed by reporting that he would be speaking to a Boy Scout Troop about the same topic, and he was pleased to have received the invitation.

Director Herber thanked Mr. Lau for attending with her and speaking at the Sacramento Metro Advocates for Rail and Transit (SMART) General Meeting where he had spoken to them about the California Mobility Center as well as a variety of projects that SMUD was working on. She thanked staff for their assistance in getting some information to Dr. Kelly Byam related to getting solar for the Elks Lodge in Elk Grove. She then reported on her attendance at the Del Paso Sports Complex ribbon cutting where Director Kerth had spoken. She closed by thanking the Pocket Greenhaven Neighborhood Association for allowing her to speak to them regarding SMUD's Zero Carbon

Plan and thanked Lupe Jimenez, Manager of Research & Development, for attending and assisting with questions.

Director Kerth reported on his attendance at tree lightings with the Natomas Chamber and the North Sac Chamber, as well as his attendance the Big Cheese event by the Plumbers Union where they had held an open house for their new hall. He then reported on his, Director Tamayo's and Director Sanborn's 2030 Zero Carbon Plan presentation at the Harry S. Truman Democratic Club of Greater Sacramento. He closed by reporting on his attendance at the open house of the new hall for Roberts Family Development Center as well as the Del Paso Heights Sports Complex ribbon cutting.

Director Tamayo reported on his presentation to the Truman Club and stated he would be providing an upcoming presentation to the Latino Democratic Club. He then reported on his attendance at the Hispanic Chamber's Estrella Awards where he had presented an award to the new Mayor of West Sacramento, Martha Guerrero.

Director Sanborn reported on her attendance at the Del Paso Sports Complex ribbon cutting, the Hispanic Chamber Estrella Awards, and the Truman Club presentation. She then reported on her attendance at the Fulton El Camino Festival of Lights parade where she served as a judge and noted it would be great to enter one of SMUD's electric trucks decorated with lights in the parade.

President Bui-Thompson reported on her attendance at the Plumbers and Pipefitters' Big Cheese event as well as the Roberts Family Development Center event. She then reported on her participation in the Run to Feed the Hungry. She closed by reporting on her participation on the Sacramento County golf team where she had been invited to join by Supervisor Patrick Kennedy, which was a fundraising event to support the Morton Family Golf Foundation and the Golf Academy at Hiram Johnson High School.

Paul Lau, Chief Executive Officer and General Manager, reported on the following items:

1) Child Development Center. As some of you know, tomorrow we are holding the official groundbreaking of our new child development center on Folsom Boulevard. Sac State and UC Davis Health are partnering with us on this innovative solution to the community's child-care needs. President Bui-Thompson and I will be speaking at tomorrow's event, along with some of our partners. The new center is scheduled to open next fall. It is much larger than the previous Lighthouse facility, featuring 15,000 square feet of outdoor space and room for a children's garden. The center will be able to accommodate 200 children. With the Lighthouse facility on the Headquarters campus reaching end of life, SMUD's People Strategies & Services team investigated a number of options before recommending the new site, which originally housed RC Country Hobbies and The Ballroom of Sacramento. SMUD is the leaseholder on the property and will share operating costs and child-care slots with Sac State and UC Davis Health. We are excited to be able to offer quality and affordable child-care services. With the shortage of child-care options in our region, this will help SMUD continue to attract and retain the quality workforce we need to continue providing excellent electric service and deliver on our 2030 Zero Carbon Plan. I am extremely proud that we came up with an outside-the-box solution to a child-care shortage that affects communities across the country. Any spots unfilled by SMUD, Sac State and UC Davis Health will be offered to the community.

2) California Arrearage Payment Program (CAPP). We received great news since the last Board meeting. After months of hard work, we learned that we were successful in securing more than \$41 million in financial assistance for SMUD residential customers who have not been able to pay their bills

due to economic impacts of the COVID-19 pandemic. SMUD is the first public utility to receive funding from the California Arrearage Payment Program, or CAPP. SMUD has already started applying bill credits for customers with past-due balances incurred from March 4, 2020, to June 15, 2021. Customers do not need to apply for this new funding since the funds were transferred directly from the State. We are following all the customer protections mandated by the Department of Community Services and Development, which includes no customer disconnects for at least 90 days after the credit is applied. In fact, SMUD will not be disconnecting until March 2022 at the earliest - well after the required 90 days.

- 3) **Director of Diversity, Equity and Inclusion.** Last month, I shared that we had extended an offer for our newly created position of director of Diversity, Equity and Inclusion. I am excited to share that we welcomed Dr. Markisha Webster to SMUD in the new role last week. You will recall that this position was created during our realignment to ensure that we embed diversity, equity and inclusion (DE&I) in everything we do here at SMUD. Markisha joins us from the City of Portland, where she served as director of the Office of Equity and Human Rights. She started work at SMUD last Monday and is excited to get going. Also, on the DE&I front, we recently opened applications for our Diversity, Equity, Inclusion and Belonging Council. A team of SMUD employees worked hard over the last couple of months helping to define the Council's role, charter, membership and application process. We are seeking a diverse cross section of employees from all of our business groups and Employee Resource Groups to fill the 19-member Council. The Council will advise on important DE&I matters. We have invited employees to apply by the December 22nd deadline.

4) **Big SMUD Giveback.** Tomorrow marks the end of our Big SMUD Giveback employee giving campaign. It has been a busy couple of months, not just with donations but with employee volunteering at virtual events and in-person events with COVID protocols. I personally had a great time at the Habitat for Humanity build last month, along with Jennifer Davidson, our Chief Financial Officer and this year's SMUD Cares executive sponsor. It is incredibly rewarding to get out into the community, get our hands dirty and know we are making a positive impact on peoples' lives. It is one of the things that makes SMUD such a great place to work.

5) **Board Video.** Finally, we will close with tonight's Board video, which is a year in review of SMUD's many 2021 accomplishments.

President Bui-Thompson requested the Summary of Board Direction, but there were no items.

Director Sanborn requested that the meeting be adjourned in honor of Joshua Johnson, a Sierra College student assistant with SMUD's Help Desk in the IT Department. She stated that his fellow employees said he understood the true meaning of customer service, he was gone too soon, and may he rest in peace.

No further business appearing, President Bui-Thompson adjourned the meeting in honor of Joshua Johnson at 7:38 p.m.

Attention SMUD Board of Directors

Regarding the removal of 210 Trees in the Sundance Natural Area

Dear SMUD Board of Directors,

Your comment that "SMUD is on track to eliminate 100% of all carbon emissions from our power supply by 2030" is a very carefully worded public relations statement. While I genuinely applaud SMUD's efforts to eliminate carbon emissions from your "power supply", this comment ignores the fact that SMUD is also one of the biggest carbon polluters - and will be for decades to come. SMUD's current actions are resulting in a huge carbon footprint!

Perhaps taking a look at what actually happened in Orangevale's Sundance Natural Area (a small 14 acre urban natural reserve) will bring some reality to what SMUD is actually doing. SMUD had an ongoing program to trim trees away from its power lines, which is understandable - even though under-grounding power lines would have been a more responsible investment. However, instead of simply trimming trees, SMUD decided to cut them down. This tree pictured below, along with the other 209 trees that SMUD cut down in the Sundance Natural Area this summer, are now totally gone and so are all the benefits of the carbon sequestration they provided.

This huge tree was healthy, well off-the-beaten-path and yet is now no longer a benefit for carbon sequestration, water reservoir,

air quality, or as a wildlife habitat. The amount of carbon put into the atmosphere from the loss of just this one tree is

approx. **466 lbs per year**. **SMUD removed 210 of them!**

According to Davey Research Group (DRG), the firm hired by such cities as Sacramento and Roseville for their expertise in analyzing urban forestry programs, below is an accounting of some of the carbon sequestration impacts. Even the roughest calculations for the loss of so many trees shows that

SMUD has caused tens of thousands of pounds of carbon to be put into the atmosphere every year.

ANNUAL CARBON SEQUESTRATION BENEFITS

Trees absorb atmospheric carbon, which reduces GHGs. The carbon-related function of trees is measure in two (2) ways: storage (total stored in tree biomass) and sequestration (the absorption rate per year). Urban trees act as a sink of CO₂ by storing excess carbon as biomass during photosynthesis and the amount of CO₂ stored is proportional to the biomass of the trees (Gomez-Baggethun and Barton, 2013).” (DRG)

Name DBH (inches) Reduced Atmospheric Carbon (pounds)

Purple Leaf Plum 6 in. **110** lbs per year
Red Maple 12 in. **267** lbs per year
Big Leaf Maple 24 in. **731** lbs. per year
Douglas Fir 24 in. **466** lbs. per year
Western Red Cedar 24 in. **466** lbs. per year
(statistics from DRG)

**Wildfires and the California Public Utilities Commission's Wildfire Safety
Division Enhanced Vegetation Policies**

(CPUC- WSD)

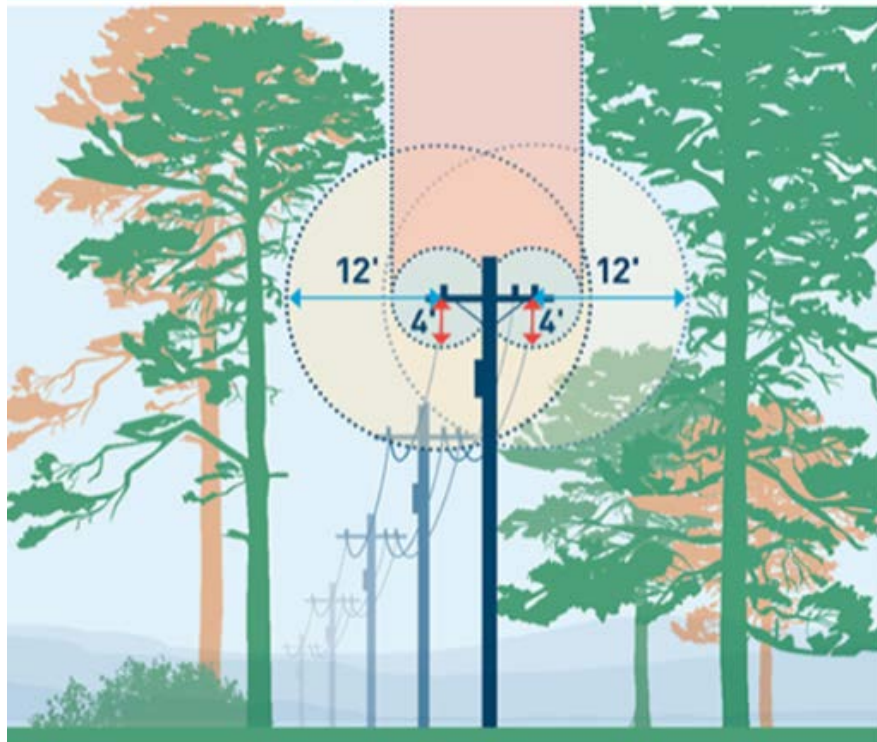

As a result of the wildfires, the CPUC-WSD issued "enhanced vegetation management" policies diagramed below. They do not require, or even suggest, the wholesale removal of trees. Even the CPUC recognized the benefits of the trees in the overall health and safety of our environment. The failure to consider the significant environmental impacts of removing healthy, mature (previously protected) trees, especially with Climate Change repercussions compounds the damage.

Yet, SMUD chose the massive onslaught of removing hundreds more trees this summer - and thousands more with its "free tree removal" program that is used to entice homeowners to remove trees instead of simply having them pruned. The benefits of those trees are now gone, including the fact that they have all survived multiple drought cycles. Given the size of the stumps, many, if not most of the 210 trees, were no where near the power lines.

ENHANCED VEGETATION MANAGEMENT

The CPUC-WSD's "enhanced" guidelines VS. SMUD's irresponsible actions of clearcutting. Below are some pictures of this summer's losses with their orange painted stumps

Enhanced Vegetation Management

PLANTING LOTS OF "NEW SMALL TREES"

Planting lots of new small trees, which should have been a program for *improving* impacts on the climate through *additional* carbon sequestration, will now **not even begin to make up for the deficit being created** for at least about 30-50 years, depending on the size of the trees SMUD cut down. (and that is if the new trees even survive during these drought conditions)

There is no “improvement”. Choosing to remove these trees instead of just pruning them as had been done in the past, does not support your comment that “Tree removal is a *last* resort...”

Now multiply the impacts from this incident by the thousands of trees that SMUD has been cutting down as a cost-saving measure - and with the additional enticement of cutting them down for “free” for homeowners. These losses are ongoing impacts - ones that will be felt every year. Whatever the original tree-trimming costs were, they have been far outweighed by the devastating environmental repercussions. Every entity that pollutes can point to “cost savings” as their rationale. But ‘cost savings’ for whom?...certainly not our children and grandchildren who will be left with the destructive impacts of climate change for generations.

This is highlighting just one of the major benefits of preserving our urban forest. There are the other major water, energy, and air quality benefits as well as for the preservation of the ecosystem and wildlife habitat. For instance:

ANNUAL STORMWATER BENEFITS

"Interception – Trees intercept rainfall in their canopy, which acts as a mini-reservoir. Some water evaporates from the canopy and some slowly soaks into the ground, reducing the total amount of runoff (Xiao, et al., 2000). Canopy interception also lessens soil compaction, which in turn further reduces runoff. For instance: a red maple (12” DBH) growing along a residential street would intercept an estimated 909 gallons of stormwater from entering City storm sewers” (DRG)

<u>Name</u>	<u>DBH</u>	<u>Intercept Stormwater Runoff</u>
Purple Leaf Plum	6 in.	358 gal.
Red Maple	12 in.	909 gal.
Big Leaf maple	24 in.	2,035 gal.
Douglas Fir	24 in.	2,964 gal.
Western Red Cedar	24 in.	2,964 gal.

One of the main reasons that so many desert areas are planting massive numbers of trees is the understanding the role that trees play in bringing rain to an area. Trees' most efficient, evapo-transpiration properties are very important factors when considering climate issues. Cutting down these assets makes drought conditions even worse. Deliberating ignoring this relationship between trees and weather patterns, will result in even more fires.

SUMMARY

It is commendable to have a “vision” but it’s also important to recognize the massive destruction that is being done in the meantime. As a result of these SMUD policies of removing trees instead of just pruning where necessary, SMUD is actually one of the biggest (if not THE biggest) carbon polluters in the Sacramento area. The claim that ""SMUD is on track to eliminate 100% of all carbon emissions from our power supply.” is only half of the equation!

It is not ok for SMUD to ignore their other, very real negative impacts.

I hope that you will rethink what you are doing and the "public relations” campaign of misleading verbiage that SMUD is advertising.

We are in the middle of a climate crisis - amid drought conditions and with the devastating loss of so many species due primarily to the loss of their habitat. This policy of clearcutting will actually make the area's drought effects even worse.

All actions need to be evaluated according to their environmental impacts and their effects on our climate.

Sincerely,
Peg Pinard

"The tragic wildfires of the past two years have highlighted *decades of infrastructure neglect by PG&E* clearly demonstrating that its electric transmission & distribution business model is, indeed, "Run to Failure," as it was with its gas lines in San Bruno, rather than safety and fire prevention." [New York Times: How PG&E Ignored Fire Risks in Favor of Profits.](#)

"Run to Failure," is the policy of waiting for equipment to fail before improving it.

With regard to wildfire liabilities and the state's experience with PG&E, the California Public Utilities Commission's Wildfire Safety Division (CPUC-WSD) determined that "An audit revealed less than 5% of PG&E's Enhanced Vegetation Management was done on the 20 highest-risk power lines..."

NARRATIVE:

Requested Action: Authorize the Chief Executive Officer and General Manager to award a contract to Novinium, Inc. for Cable Injection Services for a period from January 24, 2022, to December 31, 2022, with an optional one-year extension for an amount not to exceed \$2,350,000.

Summary: SMUD solicited bids for cable injection services in 2012 and received offers from two suppliers: UtilX and Novinium, Inc. (Novinium). Since that time, Novinium has acquired UtilX and effectively removed the only other supplier in the market who may have been capable of meeting our specifications and performing the scope. Specifically, as with the industry standard, SMUD requires the use of injection elbows which meet all requirements in accordance with Institute of Electrical and Electronics Engineers (IEEE) 386, as well as Organofunctional Siloxane injection fluid. The materials and processes required to successfully complete this scope of work are proprietary and based on patented technology owned solely by Novinium. After extensive market research, this finding has been confirmed. Every Cable Injection project identified by staff across the country has utilized the proprietary technology and processes owned by Novinium. For this reason, staff requests to award this contract as a Sole Source Procurement to Novinium.

Board Policy: BL-8, Delegation to the Chief Executive Officer and General Manager with Respect to Procurement;
(Number & Title) SD-4, Reliability.

Recommendation: Award a Sole Source Contract

Award to:

NOVINIUM, INC.
22820 RUSSELL ROAD
KENT, WA 98032

Benefits: Injecting cable extends the lifespan and delays the need for cable replacement allowing SMUD to maintain infrastructure and sustain our load serving capability at a lower cost. The cable injection is an additional strategy to maintain underground cable integrity.

Cost/Budgeted: \$2,350,000; Budgeted for 2022 to 2024 by Grid Assets.

Alternatives: Do not utilize cable injection and replace the cable. In comparing unit costs from 2021, the cost of injection is approximately (14%) of the cost for replacement.

Affected Parties: Grid Assets, Supply Chain Services, and Contractor.

Coordination: Grid Assets and Supply Chain Services.
