Audit & Review

SMUD®

2022 Plan Update Key Milestones

March 18 – April 18
Public Comment Period

September - March
Update plan for new efforts and receive advisory opinions from WSAB

April
Qualified independent Evaluation and EROC presentation

May
Tabletop exercise and Board of Directors presentation

June
Finalize WMP

July 1
Submit to WSAB and publish on website

SMUD®

Wildfire Mitigation Plan (WMP)

SMUD's priority is delivering safe, reliable, sustainable and economic electric service

Minimize the probability that SMUD's transmission and distribution (T&D) system may be the origin or contributing source for the ignition of a wildfire.

Implement a WMP that embraces safety, prevention, mitigation and recovery as a central priority for SMUD.

Implement a WMP that is consistent with state law and objectives.

Updates to the WMP

- WSAB Recommendations
  - *Incorporated context setting table*
  - *Clarified WMP public review and adoption processes*
  - *Clarified budgeting process for WMP program commitments*

- Detailed new efforts in community outreach and customer communications sections to recognize new efforts

- Updated roles and responsibilities to reflect enterprise realignment

SMUD®

Updates to the WMP - cont'd.

- Operations and maintenance department updates
  - Situational awareness tools used by Power System Operators
  - Clarifying the use of certified and experienced vegetation experts
  - Clarifying the various types of inspections and clearance objectives in and out of the HFTD
  - Describing new workforce training for fire prevention and response in HFTD

- Project updates
  - Completion of several projects during 2020-2021
  - Updated and/or added projects

Updates to the WMP - cont'd.

- Incorporated KPI metrics
  - *Program performance table*
  - *Enhancement projects table*

- Non-KPI Indicators
  - *Findings from inspections*
  - *Ignition drivers*

- Community and local government outreach

BKI ENGINEERING SERVICES

Power in Partnership

Evaluation Conclusion

- BKI's independent evaluation finds that the 2022 SMUD WMP, prepared by SMUD, is comprehensive and meets all plan requirements set forth in CPUC Code Section 8387.

- SMUD's overall wildfire mitigation and hardening efforts meet or exceed current industry best practices.

Next Steps

- Board action requested - adopt SMUD's 2022 Wildfire Mitigation Plan

- Submit 2022 Wildfire Mitigation Plan to the WSAB by July 2022
