

## Stay safe and well

COVID-19 has impacted many aspects of our lives, including many of our local businesses. At this time, we're not disconnecting power for non-payment. And to further help, we compiled a list of local and national resources available to assist you. We know that owning and operating your business and doing everything you can to keep the doors open can be difficult right now.

Learn more about what assistance is available for our business community at [smud.org/BizResources](https://smud.org/BizResources). •

## A clean energy future for your business

The road to a clean energy future begins with us. As your community-owned, not-for-profit electric service provider, we've been at the forefront of carbon reduction efforts on the local and national stage for years. Now, we're taking things a step further, embarking on a bold new journey to eliminate 100% of greenhouse gas emissions from our power supply by 2030.

You and your business can join us in transitioning to a carbon-free economy, one that will benefit our community and future generations for years to come.

We have programs in place to make the switch to all-electric in a cost-effective way, and we're always looking for new sustainable energy

solutions for your business by researching, testing and evaluating innovative technology. Gas-to-electric conversion is the process of upgrading your company's carbon-emitting equipment with newer, more advanced, cleaner electric alternatives.

If you want to modernize your existing building equipment for water heating or space heating, or you want to add a more cost-effective fleet of electric vehicles, we have solutions and incentives to help with your bottom line. Learn more at [smud.org/GoElectricBiz](https://smud.org/GoElectricBiz). •

## Meter vandalized? Call us, don't fix it yourself

We've received reports of missing or vandalized meters at local businesses and want to make sure customers know attempting to fix it can be dangerous. If your meter is missing or vandalized, please call **1-888-732-SMUD** and we'll send a trained professional out to safely repair it. •

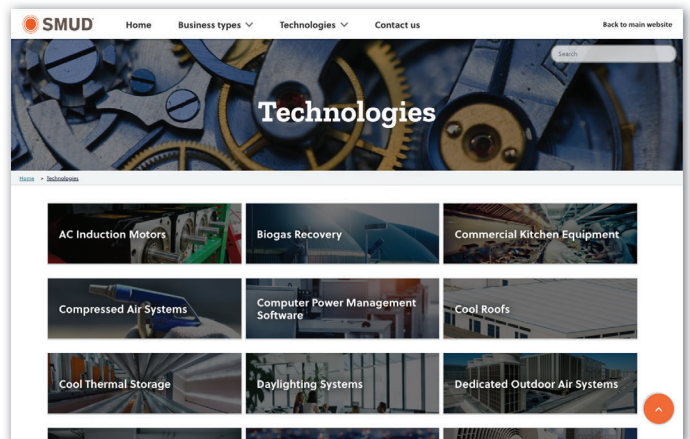

## New tools for business customers now available on our website

For help finding the most energy-efficient equipment or energy-saving opportunities for your business, look no further than our new Business Energy Advisor website.

The site is a central information hub that meets all the energy needs for your business, from the most energy-efficient technology to how to maintain your equipment for optimal operation.

The site is easy to use and filled with advice on proven energy management strategies and technologies to help you save energy and money. You can also browse by business types for tips related specifically to your business or by technologies currently available.

Check it out at [smud.org/BizEnergyAdvisor](https://smud.org/BizEnergyAdvisor). •

## Let's stay connected, we're here to help

During these challenging times, we're finding new ways to stay connected with you and support your business. We offer a variety of online classes, workshops and educational videos featuring the latest in energy technology. You can register at [smud.org/Workshops](https://smud.org/Workshops). Here are a few upcoming virtual events you can attend. •

**Adapting our building stock**  
Wed., April 14 | 10:30 a.m. - noon

**Building electrification solutions for multi-family dwellings**  
Wed., April 21 | 11 a.m. - noon

### SMUD Board of Directors

Your elected Board of Directors holds regular meetings once a month on the third Thursday at 6 p.m. The first meeting of each quarter is held at 9 a.m. Meetings are streamed live and archived on [smud.org](https://smud.org). Due to the COVID-19 pandemic, Board meetings are currently held online. Visit [smud.org/Board](https://smud.org/Board) for the latest information.
