

Is your business EV ready?

SMUD's Commercial Electric Vehicle (EV) program makes it easy and affordable for your business to be EV ready. SMUD eFuelSM Advisor can provide your business a no-cost, customized analysis of your business's electric transportation future including vehicle selection, charging recommendations, site analysis and infrastructure cost and payback information.

Take advantage of incentives for your commercial vehicles including light-duty cars, trucks or semi-tractor trailers. Plus, EV charging installations for customers, tenants or employees are eligible for incentives of \$4,500 per handle for each level 2 EV charger.

And starting early 2023, SMUD eFuelSM Solutions will provide a turnkey installation service that offers a no or low up-front cost in exchange for a monthly fee on your SMUD bill.
