The 2022 Meter Reading Schedule indicates the dates SMUD will be coming to your home to read the meter and which months we will estimate the read.

1) Locate your billing cycle on your SMUD bill.
(See example below.)
2) Find your cycle number in the "Cycle" column on the schedule.
3) SMUD will read the meter on one of the dates to the right of your cycle number.

## About the electric meter

Since you do not have a smart meter, SMUD field personnel will read the meter at your home once every three months to obtain your electricity use.

For the months the meter is not read, your bill will be estimated based on your previous average usage.

Every three months we'll read the meter and reconcile your previous estimates. Your account will be adjusted if needed.

As a reminder, in order to remain eligible to opt out of having a smart meter, you must provide regular access to the meter for the purpose of maintenance and meter reading.
