Integrated Design Solutions
SMUD offers free energy-efficient design assistance and financial incentives for new construction, major renovation and many types of tenant improvements. Request a free consultation before you design your project.

Greenenergy
We offer businesses an easy, affordable way to show their commitment to the environment by meeting their electricity needs with power from clean energy resources.

Electric Vehicles
Take advantage of incentives for fleet electrification and electric vehicle charging installations for customers, tenants or employees.

Solar and Storage Rate
If you have qualifying renewable generation—such as a photovoltaic system—installed at your business, this option is for you. The renewable generation supplies your business’ electricity needs, which in turn reduces the electricity supplied by SMUD. Intermittent excess energy produced by the renewable energy system is sent back to SMUD and is reflected as a credit on your bill.

Clear space
You must leave 8 feet of clearance in front of SMUD’s green electrical boxes. This helps us work more efficiently, especially during a power outage. You may be charged if SMUD has to clear the space. You must also allow access to utility easements on your property so we can inspect and maintain our power lines and equipment.

Power theft
Our technicians encounter various methods of power theft each month. Unsafe conditions are a danger to all SMUD customers. Please report any unsafe situation you discover by calling us at 916-732-6594.

Billing and payment options
Custom Due Date
Set your payment due date range.
Go Paperless
View, track and pay your bill online with a digital bill.
Campus Billing
Combine multiple accounts onto a single monthly statement. Eligibility requirements apply.
Electronic Funds Transfer Program
Apply to have your bill payment deducted automatically from your checking account.
Online payments
Pay your bill online at smud.org. Click on the “Pay Your Bill” button to view your bill and make payments from your bank account or with your credit card.

Other services & rate options
Agricultural Time-of-Day (TOD) Rates
Agricultural TOD rate options may be beneficial for customers who can adjust their energy usage to off-peak hours.

Economic development
An economic development program is available to qualifying commercial customers locating, expanding, or retaining business in our service territory with a maximum demand of at least 300 kW. Incentives will apply to the System Infrastructure Fixed Charge, Site Infrastructure Charge, Summer Peak Demand Charge and electricity usage charges on their bill. There is a larger discount for locating in a Disadvantaged Community.

Energy efficiency and gas-to-electric incentives
SMUD offers a variety of incentives for approved energy and gas-to-electric equipment upgrades.

Power factor adjustment
Customers with power factors below 95% may incur additional charges on their monthly bill. Customers may benefit from establishing a contract to pay a monthly waiver instead of the power factor adjustment.

Energy Assistance Program Rate (EAPR)
This is SMUD’s discounted rate for certified nonprofit agencies whose primary function is to provide sleeping quarters for low-income residents.

Effective January 1, 2023
2023 Commercial Rate Guide
Helping you save energy, save money and support a carbon-free future.
Your rate classification
As your community-owned, not-for-profit electric service, SMUD proudly provides rates that average between 43 to 57% lower than neighboring PG&E as of June 1, 2022. These rates are for commercial, industrial, agricultural and lighting customers. To continually provide our customers with competitive pricing, our electric rates and options are extensive. This document summarizes these rates and options.

Information about your rates
Effective July 1, 2008, a hydro-generation surcharge was implemented. It adjusts annually, as needed, based on precipitation.

Commercial & Industrial Time-of-Day (TOD) rates price energy consumption (kWh) by seasonal peak and off-peak time periods, including an “off-peak saver” period during non-summer months. These rates include a System Infrastructure Fixed Charge, a Site Infrastructure Charge (based on the highest 12-month demand), a Summer Peak Demand Charge and a Maximum Demand Charge (based on highest monthly demand).

**Non-Summer**
- **Peak** Weekdays between 4:00 p.m. and 9:00 p.m., excluding holidays
- **Off-Peak Saver** Every day between 9:00 a.m. and 4:00 p.m., including holidays
- **Off-Peak** All other hours, including holidays

**Summer**
- **Peak** Weekdays between 4:00 p.m. and 9:00 p.m., excluding holidays
- **Off-Peak** All other hours, including holidays

Lighting rates
Street Lighting Service
The following street lighting rate schedules apply to streets, highways, bridges, public parks, elementary schools, secondary schools and colleges.

Outdoor Lighting Service
Rate Category NGT
Applies to SMUD owned and maintained outdoor overhead lighting service (dusk-to-dawn night lights) for customers not covered under Street Lighting Service, Rate Schedule SLS.

Traffic Signal Service
Rate Category SL_TSF
Closed to new customers.

Traffic Control
Intersection Light Service
Rate Category TS_F, TS
Applies to pedestrian and vehicular traffic signal units. The related control devices and associated intersection lighting equipment are owned and maintained by the customer.
