

Rate Code Definitions

Residential Rate Code Definitions (From SMUD Rate Policy and Procedures Manual)

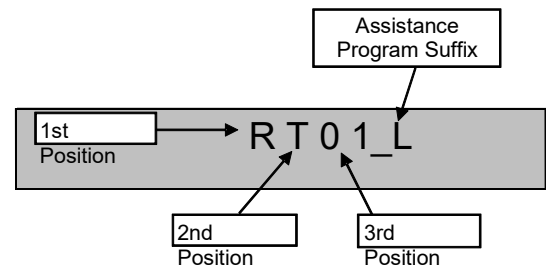

15.0 Code Structure for Residential Rate Categories

Each District Residential Service rate is identified by a Rate Category code, which has the following characteristics:

- 15.1 All Residential rate codes consist of a three to four character, alpha-numeric string which begins with the letter “R”;
- 15.2 The second and third characters indicate the rate type or TOD option;
- 15.3 A suffix, separated by the underscore symbol “_”, identifies any eligible Assistance program option;
- 15.4 Power and Metering options are charged as added devices and have no assigned rate-based identifier.
- 15.5 Greenergy®, Solar Shares® and other premium program options are charged separately and have no assigned rate-based identifier.

Residential Rate Code Nomenclature

Position	Code	Description
First	R	Residential
Second	S	Standard Service
	W	Domestic Wells
	T	Time-of-Day
	F	Fixed
Third	EH	Open Electric-heated
	CH	Closed Electric-heated
	GH	General Service
	MM	Master-Metered
	01	Rate Option 01
	02	Rate Option 02
Suffix	_E	EAPR Low-Income
	_L	Medical Discount Rate
	_EL	EAPR & MED Rate

Examples:

RSEH_L = Residential standard service, electric heating, with a medical discount.

RWGH_E = Residential with a domestic well, general service with a low-income (EAPR) discount.

Rate Code Definitions

Commercial Rate Code Definitions (From SMUD Rate Policy and Procedures Manual)

Commercial Rate Code Nomenclature

Position of Code Letter	Legacy General Commercial	
	Code	Description
First	G	General Service
Second	S	Standard Service
	U	Time-Of-Use
	F	Flat Rate
	D	Temperature Dependent
	N	Negotiated Contract
Third	E	Economic Development (ED)
	S	Secondary Service
	P	Primary Service
	T	Transmission Service
Suffix	N	Non-Demand < 20 kW
	_S	Small < 500 kW
	_M	Medium 500-1000 kW
	_L	Large > 1000 kW
	_25	ED with 25 new jobs
	_250	ED with 250 new jobs
	_600	ED with 600 new jobs
	_04	Campbell Soup cogen
	_99	Special Contract
	_19	UCD Generation Facility
_DWAPA	Direct Access, Western Area Power Administration	
_T	Time-Of-Use	

Agriculture and Irrigation	
Code	Description
A	Agriculture
S	Standard Service
O	Optional Time-Of-Use
N	Non-Demand < 30 kw
D	Demand > 30 kW

Lighting	
Code	Description
S	Street
T	Traffic
L	Lighting
S	Signals
_COM	Customer Owned & Maintained
_COM_M	Customer Owned & Maintained, Metered
_CODM	Customer Owned /District Maintained
_DOM	District Owned & Maintained
_F	Flat Rate

Examples:

GUP_L = Commercial, Time-Of-Use, Primary Voltage, Larger than 1 MW

ASN = Agricultural, Standard Service, Non-Demand < 30 kW

SL_CODM = Street Lighting, Customer-Owned and District Maintained

Rate Code Definitions

Commercial Rate Code Definitions (From SMUD Rate Policy and Procedures Manual)

Commercial Rate Restructure Code Nomenclature

Position of Code Letter	Restructured Commercial	
	Code	Description
First	C	Commercial
Second	I	Industrial
Third	T	Time of Day
Fourth	S	Secondary Voltage, >12kV
	P	Primary Voltage, 12kV or 21kV
	T	Subtransmission Voltage, 69kV
Fifth	-0	0-20 kW
	-1	21-299 kW
	-2	300-499 kW
	-3	500-999 kW
	-4	1000+ kW

Agriculture and Irrigation	
Code	Description
A	Agriculture
S	Standard Service
O	Optional Time of Day
N	Non-Demand < 30 kw
D	Demand > 30 kW

Lighting	
Code	Description
S	Street
T	Traffic
L	Lighting
S	Signals
_COM	Customer Owned & Maintained
