

# Go Electric Business Incentives | Heat Pump Space Heating and Cooling

Projects that replace gas-fired systems with efficient electric heat pump equipment are eligible for incentives.

Qualifying Incentives	Measure (new unit description)	Criteria	Incentive
	Single-zone and multi-zone mini-split inverter driven heat pumps	<ul style="list-style-type: none"> <li>Must serve spaces previously served with natural gas or propane heat</li> <li>All units must satisfy Title 24 minimum efficiencies</li> </ul>	\$500/ton cooling capacity
	Packaged and split-system heat pumps	<ul style="list-style-type: none"> <li>Must serve spaces previously served with natural gas or propane heat</li> <li>All units must satisfy Title 24 minimum efficiencies</li> <li>Commercial split systems and packaged systems 3 to 20 tons are eligible</li> </ul>	\$550/ton cooling capacity
	Variable refrigerant flow (VRF) multi-zone systems	<ul style="list-style-type: none"> <li>Single mode units that don't operate in heating and cooling modes simultaneously are eligible for 550/ton</li> <li>Units with heat recovery/simultaneous heating and cooling are eligible for \$1,000/ton</li> </ul>	\$550/ton cooling capacity for single mode unit \$1,000/ton cooling capacity for units with heat recovery
	Engineering and permitting support	<ul style="list-style-type: none"> <li>Units with electric resistance supplemental heat only</li> </ul>	\$750/project site
	Electrical infrastructure support	<ul style="list-style-type: none"> <li>Panel improvements or new circuits to support electric resistance supplemental heat</li> </ul>	\$1,000/unit
	Other gas to electric heat pump space heating solutions	<ul style="list-style-type: none"> <li>SMUD can support more complex electrification of space heating systems including water-source heat pumps, heat recovery, and customized solutions</li> </ul>	Contact <a href="mailto:CustomRetrofit@smud.org">CustomRetrofit@smud.org</a>

## Who's eligible?

- SMUD commercial customers on a commercial billing rate

## How to apply?

- Submit application [online](https://smud.org/MyAccount) at [smud.org/MyAccount](https://smud.org/MyAccount).
- Submit a photo of the existing gas equipment including the nameplate as well as a photo of the new equipment including the nameplate once installed.
