

# Go Electric Business Incentives | Heat Pump Water Heaters

Projects that replace gas-fired systems with electric heat pump equipment are eligible for incentives.

Qualifying Incentives	Measure	Incentive (per unit)
	<b>Residential-style heat pump water heater 50–80 gallon capacity</b> Must be listed on <a href="#">SMUD's qualified product list</a>	\$1,500
	<b>Commercial-style heat pump water heater 80–120 gallon capacity</b> Must be listed on <a href="#">SMUD's qualified product list</a>	\$4,000
	<b>Split-system heat pump water heater 80–120 gallon capacity</b> Must have minimum 12 kBtu/hr input in heat pump mode operating without electric resistance elements	\$3,000
	<b>Electrical infrastructure support bonus</b> Eligible for bonus if wiring changes or panel changes are required (retrofit only)	\$1,000
	<b>Other gas to electric heat pump water heater solutions –</b> Customized engineered systems can contact the Custom Retrofit Program to see if projects are eligible for Custom incentives	Contact <a href="mailto:CustomRetrofit@smud.org">CustomRetrofit@smud.org</a>

## Who's eligible?

- SMUD commercial customers on a commercial billing rate

## How to apply?

- Submit application [online](#) at [smud.org/MyAccount](https://smud.org/MyAccount).
- Submit a photo of the existing gas equipment including the nameplate as well as a photo of the new equipment including the nameplate once installed
