Powering forward. Together.

## clean power promise

low rates • reliable service • clean energy

The Clean PowerCity® movement is happening. Hundreds of thousands have taken action to join the charge, drive electric, make clean power choices at home and work and save money with SMUD rebates.

Together, we're creating Clean PowerCities across the region, while we keep our promise to deliver world-class safety, reliability and some of the lowest electricity rates in California.

To learn more and join the charge, visit [CleanPowerCity.org](https://CleanPowerCity.org) today. •

## Maximize solar with battery storage

Get up to \$10,000 when you install a qualified battery storage system at your home. Pairing batteries with rooftop solar helps maximize your investment by storing solar energy for later use when the sun isn't shining, or for use during peak hours when electricity costs the most, helping to lower your bill. They also serve as a backup power source in an emergency.

Visit [smud.org/Battery](https://smud.org/Battery) to learn more. •

## Spark your curiosity with free classes, workshops and more

Attend a variety of free, educational classes and workshops about electricity and clean energy technology. Get started by registering at [smud.org/Learn](https://smud.org/Learn). Short on time?
