NARRATIVE:

Requested Action: Authorize the Chief Executive Officer and General Manager, or his designee, to negotiate and execute any and all contracts and documents necessary to effectuate the transfer of assets and obligations of the Central Valley Financing Authority (CVFA), including ownership of the Carson Ice Cogeneration Plant to the Sacramento Municipal Utility District Financing Authority (SFA).

Summary: On September 20, 2019, CVFA paid off the bonds for the above referenced plant which provides CVFA greater latitude to consolidate with SFA because bond investors are no longer involved. Staff proposes transferring the plant to SFA to recognize administrative efficiencies through consolidation of activities, primarily in the Accounting and Budget areas due to reduced financial reporting and budget activities. It will also reduce the time required by the CVFA Commission because annual budgets will be merged into SFA.

Board Policy: SD-2, Competitive Rates

Benefits: Administrative labor efficiencies and reduced outside service administrative costs.

Cost/Budgeted: The combined project costs for CVFA and the other JPAs for implementing this project include upfront costs of approximately $400,000, offset by approximate annual savings of $175,000, providing a payback of 2.3 years.

Alternatives: Maintain assets with CVFA and forgo cost savings.

Affected Parties: Power Generation, Accounting, Budget, Environmental & Real Estate Services, Enterprise Technology, and Treasury

Coordination: Treasury and Power Generation

Presenter: Ron Jelicich, Assistant Treasurer
