**Requested Action:** Adopt criteria to adjust SMUD ward boundaries using the 2020 data released by the U.S. Census Bureau and set schedule for public redistricting workshops.

**Summary:** The Municipal Utility District (MUD) Act and Elections Code require that the Board adjust SMUD’s ward boundaries every 10 years following the release of data by the Census Bureau. SMUD is required to complete its redistricting effort no later than May 6, 2022. Federal judicial decisions and the Voters Right Act of 1985 set forth the federal requirements for redistricting, including direction to apportion wards with a maximum population deviation under 10 percent and a prohibition on redistricting in a manner which results in a denial or abridgement of the right to vote. California Elections Code section 22000 sets forth the criteria the Board should consider in adjusting ward boundaries.

Adopt the following criteria (based on legal requirements) to develop new ward boundaries:

- Adjust ward boundaries so they are, as far as practicable, equal in population such that the population deviation between the largest and smallest wards does not exceed 10%;
- Consider geography and topography;
- Consider cohesiveness, contiguity, integrity and compactness of territory;
- Consider communities of common interest: contiguous populations which share common social and economic interests that should be included within a single district for purposes of its effective and fair representation.

**Board Policy:** Governance Process GP-3, Board Job Description – j) Take such other actions as may be required by law.

**Benefits:** Comply with state and federal requirements; adjust ward boundaries to account for changes in population.

**Cost/Budgeted:** Contained in the Corporate/Legal Budget – most costs are for internal labor.

**Alternatives:** None – action must be taken to comply with the law.
